THE LUCILE GRAPE

What we claimed for the Lucile grape when introduced by us in 1899 has been proven many times by the flattering compliments received from our friends and customers about this wonderful grape. Bunch and berry are large and of excellent flavor. Vine vigorous and hardy and enormous bearer. Don't fail to plant some vines this year.

Established 1875

WEST HILL NURSERIES

INCORPORATED

M. E. ROESCH, President

Grape Vines and General Nursery Stock

1927

FREDONIA, NEW YORK

WORDEN

Worden (blue-black) and Niagara (white) are not new grapes, but standard varieties of the first rank. They can be grown practically anywhere in the United States. Like Concord, large quantities are planted for commercial vineyards. If you have never eaten grapes picked fresh from the vines, you have a treat in store for you. Every garden, whether large or small, should have them. Put in some vines this spring and reap your reward!

WE have made a specialty of grape growing for over fifty years and are, therefore, in a position to give you expert advice. Write us about your problems. We will gladly answer your questions to the best of our ability. For the same reason we can furnish you with the best vines that are grown. Try us!

NIAGARA

A GREAT PROTECTION TO THE PLANTER IS THE STATE INSPECTION OF NURSERY STOCK. THE CERTIFICATE REPRO-

DUCTION HERE STATES THAT ALL WEST HILL STOCK IS FREE FROM DISEASES AND INJURIOUS INSECT PESTS.

Specialists in

GRAPE VINES

and Growers of

Shrubs, Small Fruits, Roses and Ornamentals

Since 1875

A Word to Our New Friends

While we have specialized for over 50 years in the growing of high-grade, heavy bearing grape vines, our fortunate location with regard to soil and climate enables us to grow all kinds of nursery stock of excellent quality. Fruits, Shrubs, Roses and Perennials, strong, heavily rooted stock that is sure to take hold quickly in any new location.

We are naturally interested in your efforts as a planter and always send complete planting instructions to make certain of your success.

It is to your own advantage to order early. Our stock is then complete and we can reserve the choice varieties that you want, although shipment will not go forward until the proper planting time.

General Information

This Catalog is Our Salesman.

Through this catalog we sell direct to you, the planter. This saves you the commission usually paid to agents. We list only popular and successful varieties and you will enjoy an evening at leisure in planning for next year an Orchard to grow up with your young son—a Flowering Shrub Border or Foundation Planting to please the good wife, or a Rose or Perennial Garden to encourage daughter in getting out-of-doors.

How to Order. Please use the order blank enclosed with this book. If it has been previously used, kindly give the information called for on the form shown below when ordering by letter.

Name Street

Post Office County

State R. D. D. Box

Shipping Point if different from Post Office

Be sure to give the name of Express Office if desired by Express; or Freight Station if desired by Freight. Also name your Post Office address. **IF NO EXPRESS OFFICE AT YOUR PLACE, GIVE NEAREST EXPRESS OFFICE.**

Quantity	Names of Trees or Plants Ordered	Size	Price

Club Orders. When your order is small get your neighbors to join you. Each order is marked separately, but shipped together to save charges.

Terms. Cash with order or shipment may be made C. O. D. when one-quarter of the amount and not less than \$2.00 is sent with order. Send check, money order or bank draft. Money sent in the mail is at sender's risk.

Quantities and Rates. Five of one kind or ten of not over three varieties at ten rates. Fifty of not over five varieties at 100 rates. 400 of not to exceed eight varieties at 1000 rates. Strawberries, raspberries and blackberries, not over two varieties in 50, nor over four in 400.

Substitution In case we are out of a variety or size called for, we reserve the right to substitute another similar variety of equal merit, or another size or grade of an equal value, unless the words "NO SUBSTITUTING" are written on the order, in which case we will fill the order as far as we can and return the balance of the money.

Transportation Charges We do not prepay, except where noted by mail or on orders amounting to \$20.00 or more when shipped by freight. It is only reasonable that when transportation charges are prepaid a certain amount must be added to the cost of stock to cover this expense. Our prices are as reasonable as consistent with the first quality stock that we offer and you pay only the exact amount of transportation charges when the package is received. We know this to be a saving to our customers.

Trees by Mail. Small trees and shrubs other than those especially quoted postpaid, may be sent by mail if additional postage is sent with order according to the following table: 4 to 5 foot fruit trees to a distance of not over 500 miles for 8c each postpaid. Five trees or over, 5c each. 500 to 1000 miles, twice the amount; 1000 to 2000 miles, three times the amount. 2 to 4 foot trees and shrubs, two-thirds the amount.

Postpaid Quotations within this catalog apply to orders mailed to points within the fifth zone. For points beyond, add 10% to cost of stock for additional postage.

Superior Packing. Not only do we grow good stock by trained men, but it is also dug, handled and packed in such a way as to reach destination in first-class planting condition; and if planting instructions, which we send you, are faithfully followed, you should have success.

We Guarantee Our Stock: To be true to name. To be of quality represented. To be free from disease. To reach you in good condition. If shipment arrives otherwise, we expect customer to notify us immediately. Claims of any kind must be made within 5 days after receipt of stock.

References. Citizens Trust Company and National Bank, both of Fredonia, New York. Your own banker may give you our business standing from the Mercantile Reports. It is to your advantage to buy of responsible people.

Order Early to Win Premium Plants

10% Before March 15th If your order is received before March 15th at single, 10 or 100 rates, you may select from the list below plants to the value of 10% of your order. This means that you will receive 10c worth of premium plants for every dollar of your order.

5% Before April 1st If your order is received between March 15th and April 1st, you may select plants to the value of 5% of your order—equivalent to 5c for every dollar of your order.

No premium plants given after April 1st.

The above offers do not apply to orders for stock bought at 1000 rates, on which we give special quotations.

We will mail free of charge a wonderful landscape gardening book, "Shrubs, Trees, Vines and Perennials." It contains a long descriptive list of useful trees, vines and plants, giving ultimate height, time of bloom and many other interesting facts, making it a very valuable hand-book for anyone interested in these things. Printed on enamel paper and cloth bound. A book of 407 pages, 6 x 9" in size, sold at \$2.50 postpaid.

GRAPES

R. 1, Harbor Creek, Pa.
March 25, 1926.

West Hill Nurseries, Inc.

Dear Sirs:—I am not a new customer. I have bought stock of you the past three years. I planted three thousand Concord grape plants last year and am pleased to tell you that some of them made a growth of seven or eight feet.

Yours very truly,
JOSEPH PARRY

515 Railroad St.
No. Baltimore, Ohio.
Feb. 17, 1926.

West Hill Nurseries, Inc.

Dear Sirs:—I have ordered grape vines twice of you and never lost a vine. The first are bearing and the grapes are fine.

Yours truly,
MRS. FRANK LYBARGER

Concord

412 Howard Ave.
Altoona, Pa.
May 24, 1926.

West Hill Nurseries, Inc.

Dear Sirs:—I consider myself very fortunate to get such thrifty plants as these Delaware and Concord seem to be, and I will be a booster for your goods.

Sincerely yours,
CARL E. KARNs

The Concord is exceptionally hardy and is more generally successful than any other variety. Nearly all grape juice is made from Concord.

GRAPES are money makers. The demand for beverage making grapes has been so great in recent years that in spite of the heavy yields from the cultivated vineyards, the supply falls far short in an eager market.

By all means plant grape vines, but be sure that they are healthy, vigorous, heavily rooted vines. If you are on a farm there are likely to be waste or hilly places where grapes will pay handsomely the nominal outlay and time spent in their cultivation. If you live in the city, you can set out a number of vines along the rear fence or in an unused corner and realize enough fruit for your own use and the profit in supplying your neighbors.

Grape Vines

The Lucile is an enormous bearer. The picture shows how the heavy, compact bunches grow only inches apart, along the vine.

PLANT GRAPE VINES FOR PLEASURE AND PROFIT

Of all fruits the grape takes first place in making itself at home everywhere in this wonderful country of ours. It is easily grown, takes up the least room and produces the largest returns for time and effort expended. It comes into bearing early, usually the second year, and the demand for the fruit is universal. Back porches, line fences and out of the way places may be used, thus bringing profit out of heretofore useless ground. If room is available an arbor may be erected or the regular wire trellis used, as in commercial vineyards.

Located as we are in the famous Chautauqua County grape belt, where nearly 100,000 acres of vineyard are growing, we are in a position to advise you on the latest and best methods of planting, pruning and caring for your vineyard. Do not hesitate to write us. We will gladly give you all such information desired.

Our customers are finding a vineyard a very profitable undertaking. The fruit is always in big demand in your home town. This is only natural, as fresh picked fruit of any kind is more pleasing and satisfactory. A planting of 50 to 100 vines will give you very pleasing returns for your investment.

A WORD ABOUT VARIETIES

From the multitude of varieties, we have selected and listed in this book only those of proven merits. Concord, Moore's, Niagara, Worden and Lucile are the leaders. These varieties have proven most valuable in a commercial way and have adapted themselves to existing conditions over a wide range of territory. However, other varieties of much higher flavor and equally high characteristics along other lines are worthy of trial. Outside of the large grape growing sections, many of these varieties prove to be more valuable than those mentioned above. Conditions are so variable that, although we have tested all of these varieties on our own grounds, still the only way to be absolutely sure is to give them trial in a small way in your own section, planting larger quantities of those that do well and discarding the poorer ones. Space does not permit us to enlarge on the many good points of all the varieties we list. On the following pages we give a short description of each and leave the choice to you, or we will be glad to advise you, to the best of our knowledge.

PRUNING

Grapes will bear if left to grow naturally from year to year, as do wild grapes in the woods, but the fruit will be small, scraggly and very inferior. The object of judicious pruning is to grow the largest amount of fruit of the best quality and, at the same time, canes enough to produce

Keep up your vineyard and know the satisfaction and profit in picking tons of fine, healthy grapes when the market is waiting to pay fancy prices.

an equally good crop the next year. Proper pruning concentrates the vigor of the vine into a small number of canes and clusters, which it can perfect. Most people unfamiliar with the grape vine, fail to prune severely enough, thinking that they may damage or even kill the vine. If the vine when planted has been trimmed back properly to two buds and has made a good growth that summer, you will have two nice canes to tie up the next spring. These should be cut back to three or four feet and will undoubtedly bear some fruit the second year. The next fall or winter trim out the old wood and tie up more new canes early the next spring, preferably those that have started near the ground, spreading them out in fan shape; every year cutting these new canes back to three or four feet. If the vines grow vigorously, more of these fruiting canes can be put up than if the plant is weak. The number of canes tied up must be governed by the strength of the vines. Usually the less fruit a vine bears, the more wood it makes for another season. By thus watching and pruning your vines each year they can be kept in a strong, healthy condition, giving you good crops of fruit each year. The above manner of trimming is called the Fan System, which is well adapted to places where vines are grown on fences or arbors, etc. In commercial vineyards the Arm system is used almost exclusively, using the wire trellis. This system we will be glad to explain to those desiring it.

SPECIAL EQUIPMENT. Due to the extensive acreage of vineyards in this belt there have been developed special tools for their care; cultivators, horse hoes, pruning and picking shears, tying wire and baskets. We can supply what you may want or refer you to where same can be purchased.

Again we solicit your correspondence and gladly offer our expert knowledge about grapes, attained by many years of work with them.

Thousands of fine, healthy 2-year grape vines as far as the eye can see—growing on the West Hill Nursery Farm.

Agawam (Rogers No. 15). Red. A large grape, ripening with the Concord. Sweet, with rich, aromatic flavor. A rank grower and very productive. One of the most reliable of Rogers' Hybrids.

Barry (Rogers No. 43). Black. Bunch very large and shouldered. Berry large, flesh tender, sweet and good. Ripens before Concord. Vine vigorous, healthy and hardy.

Beta. New. Black. Bunch large and compact. Berries of medium size, second in quality. Very early. The vine is a very rank grower, exceedingly hardy and a tremendous bearer. Very popular in the Northwest, where only the earliest and hardiest varieties succeed.

Brighton. Dark red. Bunch large, long and shouldered, berries medium, skin thin, flesh tender, sweet and best quality. Ripens with or before Delaware. Vine vigorous and fairly productive. Yields best if planted among other varieties. A valuable and desirable grape for garden and vineyard.

Catawba

A good market variety of red grape. Excellent keeper. Much in demand for wine making.

A fine, 2-year No. 1 grape vine. Note fibrous root growth that turns soil nourishment into rapid wood growth and heavy, high quality yield.

Catawba. Red. Well known. Bunch and berry large and of a rich, vinous, refreshing flavor and best quality. Ripens several weeks after Concord.

Campbell. Black. A handsome, large grape with blue bloom. Bunch large, usually double-shouldered and compact. Its flesh is sweet to the center, but rather hard and pulpy. It is not high-flavored, but good, not foxy. Its skin is tough and it is a good shipper. It ripens about with the Concord, but colors up much earlier. Inclined to overbear and should be pruned closely.

Champion. Black. A prolific and profitable early market grape; quality only second to third rate. Ripens with or before Moore. Flesh sweet, juicy and foxy. A rank grower and very healthy, hardy and productive.

Clinton. Black. Desirable for wine and preserving; bunch and berry small to medium; flesh juicy and spicy; colors up with the Concord, but is not ripe until two or three weeks later. A rank grower and hardy.

Concord. Black. The most extensively planted grape in America. Bunch and berry large, fair quality, medium early; vine a rank grower, very healthy, hardy and productive.

Colerain. White. Bunch medium to large; berries medium, very sweet, tender and of excellent quality. It ripens with Moore, but will keep until frost without dropping its berries. A vigorous grower and perfectly hardy and healthy.

Daisy. Black. The earliest grape known. Is of medium size in both bunch and berry and very compact, reminding one of the Telegraph, although different in shape, its bunches being long rather than round. Its berries never crack nor drop from the cluster. Ripens a week before Moore, Champion

Delaware

The standard of red grape excellence. Juicy and very sweet. In big demand for table use.

about with the Catawba. A very strong, robust and healthy grower and as productive as anything we have yet seen. Highly prized as a wine grape in the South.

Gaertner. One of the best of the Rogers' Hybrids. Fruit and clusters large and handsomely colored, making a showy grape and selling for high prices in fancy fruit stores. Ripens mid-season. Red in color and of excellent flavor.

Goethe. (Rogers No. 1). Light red. Bunch large, berries very large; flesh sweet and juicy; ripens about with Catawba. Vine vigorous, rank grower, and generally healthy. Good keeper; highly esteemed in the South for table and wine.

Green. White. Bunch and berry are of medium size. Ripens before Moore. Is of fine quality and an excellent shipper. A good grower, very healthy, hardy and productive.

Herbert. (Rogers No. 44). Black. Bunch and berry very large; flesh sweet, tender and of good quality. Early, hardy and productive. One of the best of Rogers' Hybrids.

Iona. A dark red grape of the finest flavor. Does especially well when trained against walls or buildings, planted on dry, deep sandy soil. Inclined to overbear. Prune close each year. Ripens mid-season.

or any other extra early variety and is as hardy, healthy, robust and productive as any. In quality it is better than most, while its shipping qualities are unsurpassed by any other grape. It has never been known to mildew or winter-kill. It always yields a full crop, and no matter how heavy a load of fruit it bears is sure to develop it to perfection. While not high flavored like some varieties having foreign blood in them, it is not foxy, but is good and sweet as soon as fully colored. Its worst fault is that, like all our purely native early grapes, its flesh is somewhat pulpy, although perhaps not so much so as that of Moore. Desirable anywhere for both home and market. Indispensable for cold sections having short seasons.

Delaware. Red. The standard of excellence. Bunch and berry medium, compact, flesh juicy, very sweet and refreshing. Ripens with or before Concord. Vines very hardy and productive; a slow grower, requires rich soil, good culture and close pruning. Subject to mildew in poor grape sections and seasons.

Diamond. White. Bunch and berry large. Quality fine. Ripens a little before Concord. A strong grower and quite healthy and hardy, very productive. Desirable for both home and market.

Eaton. Black. Similar to Worden, but not as early. Berries are even larger although not so sweet; clusters not as large and compact.

Elvira. White. Bunch and berry of medium size and very compact. Ripens

Worden

Diamond

Brighton

Campbell

These four varieties are immensely popular among experienced growers who look at the net return in dollars and cents.

Isabella. Black. A well-known old variety; bunch and berry large and of good quality. Strong grower and productive, but late and not very hardy.

Ives. Black. Bunch and berry medium; compact. Colors early, but is not fully ripe until after Concord. Quality fairly good when fully ripe. Very healthy, hardy, vigorous and productive. A generally successful market grape.

Jefferson. Red. A grape of the best quality; bunch very large and handsome, often double shouldered; berries medium. Ripens with or before Catawba. Vine vigorous, healthy and productive.

Jessica. White. A grape originated in Canada. Small to medium in bunch and berry. Sweet as honey; not foxy. Ripens with Moore. Vine a fair, compact grower, healthy and productive. One of the hardiest.

King. Black. New. Much larger than Concord in both bunch and berry; more compact, juicier, but hardly as sweet. Ripens with or a trifle before Concord. A good, strong grower, hardy and prolific. Excellent for show purposes and local market. Too tender skinned for distant markets.

Lindley. (Rogers No. 9). A red grape of best quality and one of the most desirable of Rogers' Hybrids. Medium to large in bunch and berry; flesh tender, sweet and of aromatic flavor. Ripens

A fine bunch of prime 2-year-old West Hill grape vines ready for packing. Note the heavy root growth.

Thousands of tons of Grapes are shipped annually from Fredonia

with Concord. Carries and keeps well. Vine vigorous, hardy and healthy. This grape seems to be more productive when mixed with other varieties and grown on clay soil.

Lucile. A red grape ripening soon after Moore's Early. The Lucile is a most vigorous grower, hardy and an enormous bearer. It will ripen all of its wood even under a load of fruit. It has never been known to winter-kill and is peculiarly free from grape diseases. The bunch is very large, usually shouldered. We have harvested many so large that two bunches could not be put in a two-quart basket and fasten the cover on. Quality very good. The Lucile is a wonderful grape anywhere, but especially for the short season in the North. We receive many flattering testimonials for the Lucile every year. Everyone should plant at least one vine in their garden.

Lutie. Red. Highly prized in the southern climates, where it does exceptionally well. A very vigorous grower and hardy. Fruit of good size and quality. Ripens with Worden.

Martha. White. Medium in bunch and berry; color greenish turning yellow. Ripens with Concord, of which it is a seedling. Good as Concord in quality but sweeter. Good grower and bearer; hardy and healthy.

Moore. Black. A seedling of the Concord, which it resembles. Bunch large, berry very large. Equal to the Concord in quality, health and hardiness, but ripens some ten days earlier. It is a fair grower and bearer, but requires age to do its best. Valuable for garden and vineyard.

Moyer. Red. This grape seems to be a cross between the Delaware and some purely native variety. In hardiness, quality, color and size, it is the equal of the Delaware, but is a better grower, two weeks earlier (ripening with the Champion), and is free from rot and mildew. Deficient in pollen, and should be planted among Concord to bear well.

Niagara. White. A magnificent grape and very valuable for both garden and vineyard. Berries large with tough skin; quality very good; beautiful bunches of the largest size. Ripens about with Concord. A rank grower and very productive. Popular with vineyardists and amateurs North and South.

Pocklington. White. Very large and showy in both bunch and berry. Very compact and of beautiful golden color. Quality about as good as Concord, with which it ripens; liked even better by some. Vine vigorous and very healthy, hardy and productive.

Portland. New white grape. Developed by the New York State Experiment Station, here at Fredonia. Very early, hardy and productive. Large berries and compact clusters. Ripens with or before Daisy. Makes a beautiful showing with Daisy and Lucile. Price, strong 1 yr. vine, 75c each.

Portland

Regal. Red. New. Clusters are medium to large and very compact. Berries large, dark red, juicy; skin thin but tough. Pulp tender, releasing seeds easily. It ripens with the Concord. Exceedingly productive. Very vigorous, healthy and hardy.

Salem. Dark red. Bunch and berry large; flesh sweet, tender, with a rich, fine flavor. Ripens with Concord. Good keeper, vigorous and productive.

Triumph. One of the finest dessert grapes. Season very late so that its planting is confined mostly to the South. However, in our favored grape belt it ripens nearly every year. Golden yellow and of excellent quality when ripe.

Urbana. Another new grape. Originated by the Experiment Station at Fredonia. A grape on the order of European varieties. Color similar to Flame Tokay and as meaty. It is equal in flavor to the best European varieties. Very sweet. Season very late.

Vergennes. Red. Bunch and berry large; skin thick and tough; quality excellent. Ripens soon after Concord. Very vigorous, healthy and productive; hardy. Splendid keeper and shipper.

Agawam
(See Page 8)

Wilder (Rogers No. 4). Black. Bunch and berry very large; flesh sweet, pleasant and excellent flavor. Ripens soon after Concord. Good grower and productive. Good keeper and shipper.

Winchell. (Green Mountain). White. Originated in Vermont. Bunch long but slender; berry medium, sweet, of fine quality. Early as Moore. A good, vigorous grower, healthy, hardy and productive.

Woodruff. Red. A grape of iron-clad hardness. Large in bunch and berry; attractive, shouldered, sweet and of fair quality, but somewhat foxy and does not always color up well. Ripens soon after Concord. A rank grower; very healthy. Woodruff is desirable as a market variety where many others fail.

Worden. Black. This excellent grape is as hardy, healthy, vigorous and productive as the Concord, of which it is a seedling, but better in quality, sweeter, larger in bunch and berry, and several days earlier. Tender skinned and inclined to crack, but still valuable for garden and vineyard.

Wyoming. Red. Superseded by the Lucile which is more productive, much larger and better in every way.

Wheeler, Ark.
February 23rd, 1926.

Gentlemen: You do not have to tell me anything about your vines. I planted a vineyard of your vines in 1894 and another in 1907. I expect to set out on this 80-acre farm, 12 to 15 acres in Moore's Early. I will plant your vines.

Yours truly,
W. C. VANDERVOORT.

R. 5, Box 48, Toledo, Ohio.
February 11th, 1926.

Dear Sirs: I have received 150 Concord grapes about four years ago from the West Hill Nurseries and haven't lost a vine. All doing fine, bearing heavy crops and big berries.

Yours truly,
WM. JAQUILLARS.

65 W. Broadway, Westerville, O.
May 31st, 1926.

Dear Sirs: The grape vines I received from you this year were the largest of any I have ever received.

Sincerely,
F. A. HANAWALT.

R. D. 3, Eighty-Four, Penna.
March 22nd, 1926.

Dear Sirs: Several years ago my husband gave you an order for grape vines, berries, etc. They were most satisfactory.

Yours,
MRS. S. F. COOPER.

R. D. 3, New Windsor, Newburgh, N. Y.
June 8th, 1926.

Gentlemen: The vines were excellent and about the finest I have ever seen. I will want more later. They pleased me very much.

JOSEPH O'CONNOR.

Westerville, Ohio.
April 7th, 1926.

Dear Sirs: Shipment of grapes arrived O. K. Vines look of mighty good quality.

Sincerely,
F. A. HANAWALT.

Apples

It is unnecessary for us to say anything by way of introduction of the Apple. It thrives over a wide extent of territory, and is the first among all fruits. Plant 30 to 40 feet apart each way. Russian varieties are identified by the letter "R" after the name. Dwarf apple trees can be furnished only in such varieties as have a "D" after the name.

Prices of Two-year-old Apples

	Each	10	100
5 to 7 ft., first class.....	\$0.75	\$6.50	\$55.00
4 to 5 ft., medium.....	.65	5.50	45.00
6 to 8 ft., extra heavy.....	.90	8.00	
Dwarf Apples85	8.00	

Five of one variety or ten of not over three varieties at 10 rates.

SUMMER APPLES

Early Harvest. Medium to large, pale yellow, mild and excellent; productive. August.

Red Astrachan, R. D. Large and handsome, crimson, rather acid. A good grower, very hardy. August.

Yellow Transparent, R. D. New. Medium, pale yellow; tender, juicy, sprightly. A good early bearer. August.

AUTUMN APPLES

Gravenstein. Very large; striped; tender, rich, sub-acid, profitable. September and October.

Maiden Blush, D. Large, beautiful, yellow with blush cheek; fine quality and prolific. September and October.

Oldenburg, R. D. Large, striped; tender, juicy, sub-acid; a good grower, regular and free bearer. September and October.

Pumpkin Sweet. A very large, yellowish russet; very rich and sweet. October and November.

Wolf River, R. Large, greenish yellow shaded with crimson; juicy, pleasant, spicy and excellent. Tree vigorous and very hardy. October and November.

Big, strong, vigorous trees with a splendid root foundation that insures quick rooting in new locations.

Baldwin

Maiden Blush Apples

WINTER APPLES

Baldwin, D. Large, dark red; sub-acid, good; productive and profitable. December to March.

Banana. Resembles Maiden Blush, but larger and later; equally good. An early and abundant bearer. November to March.

Bismarck. Introduced from New Zealand. Large, yellow with red cheek. Pleasant, sub-acid, tender and good. Usually bears when two years old. November.

CORTLAND

A new, beautiful red Apple. Larger than the McIntosh, of better quality and matures a month later. Developed by the New York State Experiment Station. It has inherited only the good qualities of its parents, McIntosh and Ben Davis, with some additional good qualities of its own. Very firm and keeps late in winter. Prices, 1 year old, 3 to 5 feet, sturdy trees, 75c each; 10 for \$6.50. 2 year old, 5 to 7 feet, first class, each \$1.10; 10 for \$10.00.

Delicious, D. A new variety which has already become very popular East and West. Large, dark red and yellow, fine-grained, crisp, juicy and delightfully aromatic. Best quality; also a good keeper and shipper. The tree is very vigorous, hardy and a regular bearer. December to April.

Esopus (Spitzenberg). A variety of high quality. Medium to large; deep red. Tender, juicy, sub-acid and aromatic. In great demand at best prices wherever known. December to April.

Fameuse (Snow). Well-known, productive; medium-sized, deep crimson; flesh white. November.

Gano. New; large, deep red and very attractive. Tender, mild and sub-acid. A free grower and early bearer; prolific; good shipper and keeper. February to May.

Greening, R. I. Large, green; tender, rich, sub-acid; productive; very popular. December to April.

Grimes, R. Large, golden yellow; best quality; very productive, hardy and vigorous. January to April.

King, D. A handsome red Apple of the largest size and best quality. Good grower and bearer. November to March.

McIntosh, D. Large and beautiful. Deep crimson and of the highest quality. Fruit above medium to large, flesh snow-white, crisp and very tender. Tree vigorous, with spreading head.

Hardy and a good regular bearer. November to January.

Northern Spy, D. Large, striped red, quality excellent; free grower and productive. December to June.

Opalescent. A remarkably handsome new Apple. Light, shading to very dark crimson. Skin may be polished so as to reflect objects like a mirror. Tender, juicy and of superb quality. Hardy, healthy and productive. December to March.

Rome, D. Large, yellow shaded and striped with red; juicy, tender, sub-acid; productive. October to December.

Roxbury. Medium to large; yellow russet; crisp and good; productive. January to June.

Stayman. Superior to Winesap in every way. Fruit is crisp, juicy, sprightly and aromatic, very good. Vigorous, hardy and an early and reliable annual bearer. December to April.

Talman. Medium, bright yellow; very sweet; productive. November to April.

Wealthy, R. D. Medium to large, dark red; sub-acid; a free grower, productive, extra hardy. November to January.

Crab Apples

Hyslop. Large, deep crimson; very popular. October to January.

Transcendent. A beautiful variety of the Siberian Crab; red and yellow; very handsome; a remarkable grower and bearer. September and October.

Delicious

Peaches

In spite of the large quantities of Peach trees being planted, the acreage is falling off. The comparative ease with which Peach trees are cultivated and their promise of early returns, make them a most profitable crop. There is always a wonderful demand for the fruit and the prices will be good for many years. Plant 15 feet apart each way. The white fleshed varieties are marked by the letter "W" after name.

	Each	10	100
4 to 5 ft., first class.....	\$0.50	\$4.00	\$30.00
3 to 4 ft., medium40	3.00	24.00
5 to 7 ft., extra heavy60	5.50	

Five of one variety or ten of not over three varieties at 10 rates.

Belle, W. Very large. White with red cheek, firm and of fine quality. It is a rapid grower, very productive and a good shipper. Early September.

Carman. Large, rich, juicy and of high quality; pale yellow with deep blush; skin very tough. Free from rot and unsurpassed as a shipper. Very hardy and a very profitable market variety.

Champion, W. An early Peach of ironclad hardness. Remarkable for its size and quality, many specimens having attained to the size of ten inches in circumference. Free. August 25th.

Crosby. The hardiest Peach known. Tree grows low and spreading. Fruit medium size, bright orange-yellow splashed carmine. Very popular. Free. September 15th.

Greensboro, W. An improvement on the Alexander with which it ripens, but it is double the size and very beautiful. Prolific and of excellent quality.

Hale. New. A remarkable Peach of the Elberta type, discovered by the late J. H. Hale, of Connecticut, famous as the Peach King of America. The New York State Agricultural Station at Geneva, N. Y., describes it as a few days earlier than Elberta, hardier in bud and tree and equally productive. Its fruit averages larger, is more round, firmer, heavier and has less fuzz on its skin. In quality and beauty it is at least the equal of Elberta. Free. Early September.

Late Crawford. Similar to Early Crawford, but later and not as productive. Free. Late September.

Niagara. In appearance just like Elberta and of same size. However, it is a much better peach in quality, much less subject to leaf curl and other diseases, hardier and about a week later. Free.

Dewey. The earliest yellow-fleshed freestone Peach. Of good size and shape and of beautiful color. Tree is a robust grower, hardy and very productive. Free. August 1st.

Early Crawford. Very large, yellow and red. Best quality; very beautiful and popular; productive; free. Early September.

Elberta. The most popular Peach grown. It is hardy, a sure bearer and very prolific. Fruit large, yellow with red cheek. Flesh yellow, firm, juicy and of high quality. A generally successful market Peach, North and South. Ripens soon after Early Crawford. Free.

Fitzgerald. Similar to Early Crawford in season, size, color and quality but very much hardier. It will often bear when Early Crawford does not. An early bearer and reliable. Free.

Oldmixon Free, W. Large. White with red cheek; fine quality; very hardy and prolific; reliable. Middle September.

Rochester. This wonderful new Peach originated near Rochester, N. Y., and is of the Crawford type. However, it precedes the Early Crawford by a week, is more prolific, hardier, larger, prettier and fully its equal in quality. Its skin is thick and tough, which makes it a good shipper. Light yellow to orange, blushed with dark red. Well adapted for both home use and market. Free. September 1st.

Salway. One of the best and most regular bearers. Very large, creamy yellow with crimson cheek. Flesh deep yellow, juicy, rich and sweet. Free. Early October.

Smock. Large yellow, with dull red cheek; quality second class, hardy, robust and an immense bearer. Free. October.

St. John. Very similar to Early Crawford but two weeks earlier. Late August.

Wheatland. A peach of the largest size. Golden yellow. Flesh yellow, sweet, juicy, rich and perfectly free. Late September.

The borer is the Peach tree's worst enemy.

Keep him out by use of

PARA-DICHLORBENZENE

salt, which has proven very successful and is easy to apply.

Directions with every package. One pound will treat from 15 to 20 trees, depending upon the size.

Price, \$1.00 per lb. postpaid.

Perrysburg, N. Y.

November 13th, 1926.

Gentlemen: All stock ordered of you is fine. Several neighbors ordered stock of you on the show of my year. Am well pleased. Yours for boosting,

MRS. CAREY M. RANSOM.

Cohoes, N. Y.

April 17th, 1926.

Friends: We have received the vines and are well pleased. We have good luck with stock we buy of you. Best wishes,

EDWARD BAHM.

Pears

Prices of Two-year-old Standard Pears

	Each	10	100
No. 1, 5 to 7 ft.	\$.90	\$ 8.00	\$70.00
Medium, 4 to 5 ft.80	7.00	60.00
Extra Heavy, 6 to 8 ft.	1.20	11.00	

Dwarf Pears (marked "D")

	Each	10	100
3 to 4 ft., first class	\$.70	\$ 6.00	\$50.00
2 to 3 ft., medium60	5.00	40.00
4 to 5 ft., extra heavy90	7.50	

Five of one variety or ten of not over three varieties at 10 rates.

Pear trees when budded on Pear roots are known as Standards, when budded on quince roots, Dwarfs. Dwarfs come earlier into bearing, usually within two years after planting, but they do not last as long as standards unless planted deep so that the point of union between the pear and the quince gets several inches under ground, in which case the pear stock will strike roots also, and thus eventually become a standard. Dwarf Pears require more culture, fertilizing and pruning than standards, but are equally as prolific, if indeed, not more so. All varieties are not equally well adapted for dwarfs, and we offer trees of only such as are. Angouleme is the most successful on the quince.

Pears are much superior in quality if ripened in the house. Pick them about ten days before they would get

mellow on the tree. Late winter pears should be left hanging on the trees as long as safe, then pick and store like apples.

Plant standards about eighteen to twenty feet apart each way, dwarfs ten to twelve feet. We can furnish standard trees of all varieties named, but dwarfs of only such as have the letter "D" affixed to the name.

Angouleme, D. Very large, greenish yellow; juicy, rich and fine flavor, rather coarse grained. Popular and profitable. October.

Anjou, D. Very large, greenish yellow; buttery and melting with sprightly, vinous flavor. Very vigorous and productive. One of the best and most desirable. October and November.

Bartlett, D. Well known. Large, yellow; high flavored, juicy, but-tery and rich. A vigorous grower and heavy bearer; very popular. August and September.

Bosc. New. Of the very highest flavor and quality. A distinct addition to our list of pears. Large and of a beautiful golden rus-s et color. Flesh fine-grained, juicy and melting. Ripens in early October. Price, 10c per tree additional to price of other varieties.

Clapp Favorite, D. Much like the Bartlett, of which it is a seedling, but larger and a little earlier. Vigorous. Of fine quality, but neither keeps nor carries well. August.

Flemish. Large, beautiful, yellow and russet; juicy, melting, sweet and good. Great bearer, reliable. September and October.

Kieffer. Large, rich golden yellow with red cheek. Very vigorous, healthy and hardy; an early, regular and abundant bearer. The best for canning. Remarkable for its keeping and shipping qualities. Very profitable. October and November.

Lawrence. D. Medium, yellow with brown dots; melting, pleasant, aromatic. November and December.

Seckel. D. Small, yellowish brown, sweet and of highest flavor and quality. Good grower and productive. September and October.

Sheldon. Large, apple-shaped, green and russet. Sweet, juicy and highly perfumed. Best quality. Vigorous, hardy, productive. October.

Worden. A seedling of the Seckel, but several times as large and superior in beauty and keeping quality. Very sweet, juicy and fine grained. It has the peculiar pleasant aroma of its parent. October.

Standard Pear Trees

Plums

Plums are easy to grow, but do best on strong, rich soil. The most successful plum growers cultivate thoroughly, fertilize and prune annually. The plum is very liberal in its reward of good treatment. Plant 15 feet apart each way.

Prices of Two-year-old Plum Trees on Plum Roots

	Each	10	100
No. 1, 5 to 7 ft.	\$.75	\$6.50	\$55.00
Medium, 4 to 5 ft.65	5.50	45.00
Extra Heavy, 6 to 8 ft.85	8.00	

ORIENTAL PLUMS

Abundance. Large and early; of a beautiful, bright cherry color. One of the finest and handsomest growers. Very hardy. An early and abundant bearer. Middle of August.

Burbank. A most vigorous grower and an abundant and early bearer. Fruit averages a little larger than the Abundance, and is some two weeks later; large, clear cherry-red. Flesh a deep yellow with sweet, aromatic flavor. One of the best and most profitable. Late August.

Red June. A vigorous, hardy, spreading tree and very prolific. Fruit medium to large, of a deep vermilion red and very showy. Good, pleasant quality, slightly sub-acid. Early August.

Wickson. An upright grower and great bearer. Large, handsome fruit, deep maroon-red, covered with white bloom, stone small. Flesh fine-grained, firm, sweet and delicious. An excellent keeper and shipper. Season early September.

EUROPEAN PLUMS

Bradshaw. Very large, purple, juicy, vigorous and productive. Sweet and aromatic. August.

German Prune. Medium, oval, blue. Rich and sweet; productive and popular. September.

Imperial (Imperial Gage). Large, greenish, juicy, rich and desirable. Very vigorous and productive. August.

Italian Prune. Large, oval, purple, juicy and delicious. Fine for drying. A good grower and productive. September.

Lombard. Fruit is medium, dull brick color, sweet and good. A great bearer and valuable market variety. August.

Niagara. Equal to Bradshaw in every respect but much more productive. August.

Lombard

Reine Claude. Very large, greenish, good; vigorous and productive. September.

Shropshire Damson. Medium, dark purple. The best of the Damsons. Esteemed for preserving. Curculio-proof. October.

AMERICAN NATIVE PLUMS

This class, owing to its great hardiness, is particularly useful on the Western prairies and wherever other classes prove too tender.

Wild Goose. Medium, red, juicy, sweet. July.

Shropshire Damson

Napoleon Bigarreau or Royal Ann

Cherries

The Heart and Bigarreau Cherries are sweet, of larger and more robust growth than Dukes and Morellos. Plant them eighteen feet apart each way. Plant Dukes and Morellos fifteen feet apart. Their growth is slower but much hardier; fruit sour. A dry soil is very essential for Cherries.

HEARTS AND BIGARREAUS

Prices of Two-year-old Sweet Cherries

	Each	10	100
No. 1, 5 to 7 ft.	\$1.00	\$ 9.00	\$80.00
Medium, 4 to 5 ft.90	8.00	70.00
Extra Heavy, 6 to 8 ft. ...	1.25	11.50	

Napoleon. Very large, pale yellow and red; firm and sweet; profitable. July 1st.

Schmidt. Very large, jet black, very juicy, sweet and of fine flavor. An excellent shipper and very profitable. Tree is hardy and a strong, healthy grower.

Spanish. Large, pale yellow with red cheek; juicy and very good. End of June.

Tartarian. Very large, juicy, rich and productive. One of the best. End of June.

Windsor. New, large, liver-colored. Very firm and good. A late and valuable variety. End of July.

Wood. Large, light red; juicy, rich and delicious. End of June.

SENECA

A valuable new addition to our list of Sweet Cherries. Equal to Black Tartarian in every way, but ripens TWO TO THREE WEEKS EARLIER. This brings the fruit into the market in early June, giving it a decided advantage and commanding the highest prices. Fruit large, purple-black, juicy and melting. Rich, sweet flavor. Skin does not crack. Tree vigorous and productive. Strong 1-year trees, \$1.25 each.

DUKES AND MORELLOS

Prices of Two-year-old Sour Cherries

	Each	10	100
No. 1, 4 to 5 ft.	\$.75	\$ 6.50	\$55.00
Medium, 3 to 4 ft.65	5.50	45.00
Extra Heavy, 5 to 7 ft.90	8.00	

May Duke. Large, dark red; rich, juicy and excellent. Popular and reliable. June.

Montmorency. Large, light red; tender, sub-acid. One of the best. End of June.

Morello. Large, very dark red; sub-acid, rich and good. End of July.

Richmond. Medium size, red; quite acid; hardy, healthy, very early and productive. The most popular sour cherry. June.

Seneca

Quinces

Quince trees should be planted in rich, deep, moist but well-drained clay soil. The tree responds quickly to good care and culture. Its greatest enemy is blight, which is combated with the same methods used with Pears. It is a dwarfish grower, and if not controlled will soon develop into shrub or bush, hence "suckers" and water sprouts must be kept off and the tops open to sun and air. Quince can be planted 8 to 10 feet apart. Under proper conditions it bears heavily and regularly and is a highly profitable crop, since in all markets the demand for good Quinces is never fully supplied.

	Each	10	100
3 to 4 ft., first class	\$0.90	\$8.00	\$70.00
2 to 3 ft., medium80	7.00	60.00

Meech. A very early and regular bearer; wonderfully productive; fruit large, handsome and of fine quality. One of the best. October.

Rea. A seedling of the Orange, but averages double its size, equally as good and ripens a week earlier. It is probably the best of all.

Apricots

The Apricot is one of the most delicious of all fruits. It requires the same kind of soil and treatment as the peach. It is, however, a favorite for the curculio, which must be kept in check as recommended for plums.

Only the hardiest varieties are offered below. Plant fifteen feet apart each way.

4 to 5 feet, first class, each 75c.

Alexander, R. Large, oblong, yellow and red; sweet and delicious. It is an immense bearer. One of the best. July 1st.

Harris. The largest and hardiest apricot known. Largely grown in N. Y. state with success. Prolific and profitable. July 20th.

Moorpark. One of the largest. Orange with red cheek. Of rich flavor and very productive. August.

Currants

Currants and Gooseberries are among the easiest of all fruits to grow, bearing good crops even when neglected, but responding liberally to cultivation and generous treatment.

We can ship Currants and Gooseberries only into the states of:

Connecticut	Missouri
Illinois	New Jersey
Indiana	Ohio
Iowa	Pennsylvania
Kentucky	Rhode Island
Massachusetts	Vermont
Michigan	Virginia
Minnesota	Wisconsin

Prices of All Varieties:

By Mail Postpaid at Single and Ten Rates.

	Each	10	100
One Year No. 1.....	\$0.20	\$1.80	\$10.00
Two Year No. 1.....	.30	2.50	15.00

Three year No. 1 plants furnished at one-half additional to price of 2 year No. 1.

Diploma. Red. A very attractive currant of good quality; very mild. One of the largest in both bunch and berry. A most vigorous grower and very productive.

Red Cross. A fine red currant of large size, long clusters and mild flavor. Vigorous and very productive.

White Grape. Large, mild, of excellent quality. Productive. Best of the white varieties for home and market.

Wilder. One of the largest red currants known, and of good quality; mild sub-acid. The bush is a strong, vigorous grower and holds its foliage and fruit until very late. Very prolific. One of the best.

Gooseberries

Chautauqua. A very vigorous, stout, stiff, upright grower and exceedingly productive. Should not be planted closer than four by six feet apart. Leaves are large, glossy and dark green; its fruit is a beautiful light yellow, perfectly free from spines and down, veined and translucent, averaging in size 1 to 1¼ inches in diameter, although we have often grown them 1½ inches in diameter. Rather thick skinned, but very sweet and of exquisite flavor.

Downing. The largest of the American varieties. Whitish green, and of good quality. Bush is a strong, stout, upright grower and quite prolific and healthy.

Josselyn. A vigorous, upright growing bush, healthy and productive. Fruit is light red and of about the size of the Downing.

Poorman. New. Red. Of large size and excellent quality. Bush strong and healthy. Very productive.

Prices of All Varieties:

By Mail Postpaid at Single and Ten Rates.

	Each	10	100
One Year No. 1.....	\$0.25	\$2.20	\$15.00
Two Year No. 1.....	.35	3.00	22.00

Three year No. 1 plants furnished at one-half additional price of 2 year No. 1.

Blackberries

The time has been when a crop of Blackberries was a very uncertain quantity north of Pennsylvania. But since the introduction of hardy and improved varieties, large fruit may be grown in almost any part of the country with a reasonable degree of certainty. The culture of the Blackberry is essentially the same as that of the raspberry, except, as it is a stronger bush, it needs a little more room and longer trimming.

Price of Blackberries, except where noted:

Each	10	100	1000
\$0.15	\$1.25	\$4.00	\$30.00

Post-paid at Single or Ten Rates.

Blowers. Originated here in the Chautauqua "Grape Belt" and is no doubt the most productive Blackberry known. 2,694 berries have grown on one bush, and 2,720 quarts on one-third acre. Of good size and quality. Jet black and a good shipper. Hardy.

Eldorado. A good grower, healthy, very hardy and exceedingly productive. Berries are large, jet black and of best quality. Very reliable.

Erie. One of the earliest, very large, round and of excellent quality. Bush is vigorous, hardy and productive.

Blowers Blackberry

Lucretia Dewberry

Lucretia Dewberry. A running or trailing Blackberry. May be left to sprawl on the ground or else tied up on stakes or trellises like grape vines. Propagates from the tips like black raspberries and never suckers. Prune severely. Best of its class, ripening before any Blackberry. Very large, wonderfully productive and of very best quality. Price, per 10, 80c; 100, \$3.50; 1000, \$25.00.

Mersereau. A very hardy, strong, upright grower and great bearer of large, brilliant black berries that retain their color. Sweet, rich and melting, without core.

Rathbun. Large, early, hardy and very productive. It does not sprout from the roots freely but roots from the top of its canes like the black raspberry. Sweet and free from core.

Snyder. Very popular on account of its great hardiness and productiveness. Berries are medium size, sweet and good. Reliable.

How to Grow Successfully

Nearly all of the blackberries will bear on good fruit land, particularly good on sandy soil. They require the same culture as raspberries.

Keep soil free from weeds and grass. Plant in rows of seven feet apart if in field and five feet apart for garden. When the canes reach the height of three feet in summer pinch off top; this will cause them to throw out laterals. Setting plants 7 x 3 feet apart you can get 2,078 plants to an acre; 5 x 3 feet apart will allow 2,904 plants to an acre.

Columbian

Raspberries

Raspberries succeed best in a rich, mellow soil. They are easily cultivated, only requiring manuring and cutting out of dead wood and suckers.

FOR GARDEN CULTURE

For garden culture, Raspberries may be planted about four feet apart each way and tied up to stakes. A row or two each of blackberries, raspberries, grapes, currants, gooseberries and strawberries across the garden will be very convenient to attend to and would be a source of pleasure, comfort, health and profit all through the season.

FOR FIELD CULTURE

For field culture, plant in rows six or seven feet apart and two and one-half to three feet in the row, and set two to five inches deep, according to the nature of soil. In fall or spring following, trim canes back to within one or two feet of crown, according to growth they have made. About June, when young canes have made a growth of from one and a half to two feet, pinch off tip ends to make them throw out laterals. This makes them stocky and able to

resist high winds. After fruiting, remove all old wood, as the new canes need all the room, and should have all the strength the root is able to furnish.

PURPLE

Columbian. Dark red or purple. The most prolific Raspberry known and best for canning and drying. Although red, it propagates from the tip only and never suckers; late. Price, each 15c; 10 for \$1.00; 100 for \$3.50; 1000 for \$30.00.

BLACK

Cumberland. The largest black Raspberry known, averaging $\frac{7}{8}$ inch in diameter. Good and firm as the Gregg, but bush is hardier, having successfully withstood 16 degrees below zero. A strong, vigorous grower and wonderfully productive. Mid-season. Price, each, 10c; 10 for 80c; 100 for \$3.00; 1000 for \$25.00.

Plum Farmer. A berry of the largest size, great productiveness, early, ripening most of its fruit within one week. Great for early market. It's a money maker. Price, each, 10c; 10 for 80c; 100 for \$3.00; 1000 for \$25.00.

Giant. New. The most remarkable black Raspberry produced. It has been rightly named as its fruit is of giant size, and excellent in quality. The plant is very vigorous and hardy and a great producer. Price, each 15c; 10 for \$1.25; 100 for \$3.50; 1000 for \$30.00.

RED

Cuthbert. The most extensively planted Red Raspberry. Fruit bright red, good and very large; bush very vigorous, hardy and prolific. Medium to late. Land should not be too rich. Price, each 10c; 10 for 80c; 100 for \$3.00; 1000 for \$25.00.

Erskine Park. A new everbearing Red Raspberry. Superior to Ranere in size and productiveness and does not sprout so much from the roots, but grows taller and stronger. It bears in July like other Raspberries, and again in September and October. By cutting all the tops to the ground in the spring, they soon sprout again vigorously and get to bearing in August, producing much more fruit in the fall. Price, each 15c; 10 for \$1.20; 100 for \$3.50; 1000 for \$30.00.

Herbert. Of all red Raspberries this variety is the one that will give results, because of its ability to resist the Mosaic disease. You will make no mistake in planting Herbert as it is the coming berry and will bring the highest prices. New. Originated in Canada and is probably the hardiest and most beautiful Red Raspberry grown. Stood 40 degrees below zero uninjured. Very robust, prolific and free from disease. Fruit is oblong, bright red, of fine quality and very large. Price, each 15c; 10 for \$1.00; 100 for \$3.50; 1000 for \$30.00.

All Varieties Post-paid at Each and Ten Rates.

Glen Mary Strawberries, one of the largest berries, brilliant crimson and fine flavor, of great productiveness and good shipper.

Strawberries

For home use, Strawberries may be planted in rows some three feet apart and one foot in the row. More and much larger fruit can be grown by closer planting, say one by one and a half feet, cutting off the runners as fast as they grow. In field culture they are usually planted in rows four feet apart and one foot in the row, the runners left to grow. Planted so, most of the cultivation may be done with horse labor. It is very essential that they be kept free from weeds all through the season. It is well to mulch them early in the winter for protection against severe and sudden changes of weather, and to keep them from heaving out. Coarse horse manure is first-rate for this purpose, but potato tops, corn stalks, evergreen boughs or other litter having no weed seeds in, will do. Coarse material has to be removed in the spring, while finer parts of horse manure may be left to fertilize and keep the ground damp, which is quite an advantage in dry weather.

Prices for Strawberry Plants, except where noted.

10	100	1000
\$0.50	\$1.25	\$6.00

Postpaid at 10 and 100 rates.

Our plants were grown on new, rich soil and are strong and robust.

All Strawberry plants will be sent separate from the rest of your order, either by mail or express, about May 1, unless otherwise instructed.

Aroma. A berry of the highest quality, very late and exceedingly productive. Very large, conical in shape, smooth and glossy. Pleasing to both eye and palate. The plant is very robust, healthy and hardy. One of the best.

Belt (William Belt). Its originator says that he has frequently grown berries of this variety of which twelve would fill a quart. In shape they are rather long and conical. Bright red all over, healthy and prolific. Quality good. One of our very best and most reliable.

Brandywine. Plant is large, hardy, vigorous, healthy, and an abundant bearer. Berries large, regular, conical in form, firm and of excellent quality. Late; popular wherever known for market as well as home use.

Dunlap. A well-tested, generally successful and wonderfully productive variety. A very strong grower. Fruit medium to large, regular form, beautiful bright red, firm and of most excellent quality. A good shipper. Ripens early, continues a long time. One of our standard sorts.

Gandy. A good late berry. A robust grower, healthy and hardy. Fruit is very large, firm and of bright crimson color.

Gibson. Popular in the great Strawberry fields of Western Michigan. Its large size and beauty, uniform shape, high quality, and great productiveness make it the favorite of grower and consumer. Its foliage is large and abundant, roots long, a great grower and very hardy.

Glen Mary. One of the largest berries on the list. Of bright crimson color and fine flavor, always bringing the highest price in the market. The plant is very strong and prolific. As desirable for the marketman as the amateur. Midseason.

Marshall. One of the earliest. Plant very strong and vigorous. Berries of largest size and very uniform in shape. Dark crimson and of a most delicious flavor. Very fine.

Ohmer. Fruit of the largest size. A giant among Strawberries. Dark, glossy red, of excellent flavor. The plant is very large and stocky, healthy, vigorous and productive.

Premier. A new, early berry of excellent quality. Fruit large and firm. Plant a robust grower and productive.

Superb Everbearing. A practical and profitable everbearing berry. As sure to bear all summer and fall as Dunlap bears in June. Plant is vigorous, hardy, healthy and prolific. Fruit is large, handsome, dark red, glossy, of perfect shape, quite firm, quality unsurpassed. Simply "Superb." Its plants are as hardy, healthy and robust as any we know of and more productive. The Superb is probably not only the best everbearer, but the best Strawberry, everything considered. After fifteen years' experience with it, we have yet to find the first fault. **Price, 10 for 60c; 100 for \$2.00; 1000 for \$12.00.**

Asparagus

Conover Asparagus

The culture of this early and delicious vegetable is usually very profitable. It comes early in the season when there is little else to market and the proceeds are quite acceptable. It is a rank feeder and must be manured very highly. Plow or spade the ground at least a foot deep, work in and mix thoroughly with the soil plenty of rich, well-rotted manure. For field culture plant in rows three and one-half to four feet apart and one and one-half in the row. But for home use it may be planted one and one-half feet apart each way and some three inches deep. Keep the ground clear of weeds by the application of common barrel salt in early spring, which will destroy all other vegetation but does not harm Asparagus. Apply at rate of 1,000 pounds per acre. Give bed a good coat of rich manure every fall if possible.

Palmetto. Planted most extensively for commercial purposes. Large and very productive. Better in every way than some of the older varieties. **Price, strong 2-year roots, 10 for 60c; 100 for \$1.50; 1000 for \$10.00.**

Washington. This variety is the result of careful breeding by the U. S. Department of Agriculture, Washington, D. C., with the object of eliminating rust. It produces large straight shoots of a dark green color. The tips are tight and firm and do not open out or begin to branch until well out of the ground; a very valuable feature. **2 yr., 10 for 75c; 100 for \$2.00; 1000 for \$15.00.**

Postpaid at 10 rates, 100 by mail for 25c extra.

Rhubarb or Pie Plant

The first thing in spring to furnish material for pie and sauce. Also very desirable for canning, and should be in every garden. Plant three or four feet apart and make the soil rich. The richer the soil, the earlier, larger and better the stalks will be.

Price of strong, 2 year roots, each 20c; 10 for \$1.75; \$10.00 per 100.

By mail postpaid at single and ten rates.

Myatt's Linnaeus is the largest and best.

Five of one variety and ten of not over three varieties at 10 rates.

Horse Radish

Will stand a great deal of hardship, but flourishes best in deep, rich soil. Easily grown for home use and very profitable in a commercial way. Set about one by four feet apart. Prepare the soil well, same as for strawberries, and plant so that the top is about one inch below the surface.

Price of strong 6 inch sets, 50c per 10; 100 for \$1.50; 1000 for \$10.00. Prepaid at 10 and 100 rates.

Write for special prices on large quantities. We can supply sets of other grades than those quoted above.

Myatt's Linnaeus Rhubarb

Figs

The Fig requires protection over winter in the Northern states, which may be given by bending it down, covering it with soil on the approach of severe winter; or the bush may be tied together closely, a loose-fitting box over it and filled with saw-dust; or else may be planted in a tub and wintered in the cellar. It is well worth a little trouble in the way of protection. Plant in warm, dry ground, some six to ten feet apart. Each, 50c.

Brown Turkey. Brownish purple, large and rich.

Celestial or Sugar. Fruit small but very sweet.

Mulberries

American (New American). Good as Downing in every respect, but a much hardier tree. Fruit large, black, sweet and rich. Very vigorous and productive. Ripens from middle of June to middle of September. 5 to 7 ft., each, \$1.25.

Downing (Downing's Everbearing). Fruit large, black, handsome, sweet and rich; rapid grower and productive. Also a fine shade tree. 5 to 7 ft., each, \$1.25.

Russian. A very hardy and rapid-growing timber tree. Leaves are used for feeding silkworms. Fruit sweet and good but small. 4 to 5 ft., each, 50c; 10 for \$4.50.

White. Fruit edible, very sweet, usually white. Rapid grower. Valuable for attracting birds. 5 to 7 ft., each, \$1.25.

Whortle or Huckleberry

This is the Huckleberry of commerce and grows anywhere, but thrives best and produces large crops on acid soil. Dead leaves spaded in ground around plants help to make the acid condition in soil. Our plants are strong 3-year roots. Each, 75c; 10 for \$6.50.

NO ORDERS REFUSED

Some nurserymen refuse to pack an order amounting to less than \$1.00 because it does not pay. We, however, agree to pack and send any order you may give. We believe that "sturdy oaks from little acorns grow." When you see our goods you will want more.

COME TO FREDONIA

We invite you to come to Fredonia and look over our Grape Vines, Trees and Plants. Let us show you why we claim so much for our goods, our methods and our reliability. Our latch-string is always out.

Celestial Fig

Nut Trees

Heretofore the culture of nuts has been entirely neglected in this country east of the Rocky Mountains, the supply coming from the forests and importations from Europe. There is, however, no reason why this country should not produce enough to largely export instead of importing them. The market for nuts is sure and profits large. Aside from the value of the nuts, the timber of some varieties, as Walnuts and Hickory, is very valuable, and becoming more so every year. "A word to the wise," etc.

ALMONDS

Hard Shell. Hardy, with large, plump kernel. Very beautiful when in bloom. 3 to 4 ft., each, \$1.00; 10 for \$9.00.

Soft Shell. Not as hardy as the hard shelled, otherwise preferable. 3 to 4 ft., each, \$1.00; 10 for \$9.00.

HICKORY

Shell Bark. The best flavored nut. Also a fine shade and valuable timber tree. 6 to 8 ft., each, \$2.00.

CHESTNUTS

Spanish or Maroon. A hardy tree, producing nuts of a very large size and good flavor. 4 to 5 ft., each, \$1.25.

Japan. Tree dwarf. Decidedly ornamental; hardy and productive. Nuts of large size. 3 to 4 ft., each, \$1.25.

PECAN BUDDED

This nut has much improved in late years and we now offer them budded on strong seedling roots. A native of Southern states but hardy in the North also. 2 to 3 ft., each, \$1.00.

English Filberts

This illustration shows fifteen Filberts (Hazel Nuts) growing on a branch of a young Filbert tree two years after transplanting. As an ornamental tree around the home grounds, planted along the driveway or grown commercially, these interesting nut bearing trees are practically new in this country, but grown extensively in Europe. Don't fail to plant this novelty.

FILBERTS

English. A shrub growing 6 to 8 feet high. Entirely hardy. Succeeds on almost any soil and bears early and abundantly. Larger and better than the native American variety. One of the most profitable and satisfactory nuts to grow. 3 to 4 ft., each, 80c; 10 for \$7.00.

WALNUTS

Black. A lofty, rapid-growing, native tree. Valuable both for its nuts and its timber. The

latter is very durable and largely used in the manufacture of furniture and cabinet ware. 5 to 7 ft., each, 85c; 10 for \$7.50.

English or Madeira. This is the large, thin-shelled English Walnut of the fruit stores, of which immense quantities are annually imported. Unlike native walnuts, the nuts drop from their shucks when ripe as readily as those of the Hickory. The tree is of lofty growth, very productive, but not fully hardy north of New York City. 3 to 4 ft., each, \$1.25.

Hardy English. This is a strain of Walnuts, but much harder than the above. It survived a cold snap that killed peach trees and grape vines in its vicinity. It usually begins to bear when four or five years old. It is of large size, thin-shelled and of excellent quality; in fact, equal to the best. 2 to 3 ft., each, \$1.75.

White or Butternut. A handsome native tree, valuable for shade and timber as well as its nuts. 4 to 6 ft., each, 75c; 10 for \$6.50.

Japan, Sieboldiana. Perfectly hardy. One of the handsomest and most stately of ornamental trees. Leaves are immense. Bears young and abundantly. Should be more generally planted. 4 to 5 ft., each, 90c; 10 for \$8.00; 5 to 7 ft., each, \$1.10; 10 for \$10.00.

English Walnut

1336 Mandeville St., New Orleans, La.
May 25th, 1926.

Dear Sirs: Last year I bought a Lucile grape vine, this year it is loaded with fruit. I have not lost a single plant I bought from the West Hill Nurseries.

Very truly,
GEORGE W. FARR.

803 Penna. Station, New York City.
April 9th, 1926.

Gentlemen: I know the quality of your stock for you shipped about 50 or 60 bushes of various kinds to me about a year ago and was well pleased with all of them.

Very truly yours,
A. F. REITER.

21 Pearl St., Spencer, Mass.
May 25th, 1926.

Dear Sirs: I received my grape vines; they were in good shape, the nicest and best vines I ever bought. I thank you for all the fine vines you sent us.

Yours truly,
MRS. WILLIAM HULL.

Town Line, N. Y.
May 17th, 1926.

Gentlemen: Our order of berry plants, etc., arrived one week ago today, just one week after we mailed the order. We planted them the next day and they are looking fine. We never had such nice trees and plants before.

Yours,
ARTHUR A. PFEIL.

R. 1, Stone Mountain, Ga.
February 19th, 1926.

The grape vines purchased from you two years ago are fine. Will bear a good crop this year. Have recommended your stock highly.

Yours truly,
MRS. J. L. KILGORE.

106 Dove St., Albany, N. Y.
May 10th, 1926.

Gentlemen: I recently ordered some fruit trees and grape vines from you and received them in excellent condition. I was very much pleased with the purchase.

Yours truly,
H. B. LOBDELL.

Our Landscape Department

All over America a lively interest is awakening in the planting of trees and shrubs. No one today considers building a house without including the Landscaping of the grounds in the plans; and why not? It makes the place we call home more attractive to us and our neighbors, to say nothing about being more valuable. On the following pages you will find a well chosen list of ornamental trees and shrubs suitable to our vigorous Northern climate.

In planting, one should have some definite object in view. It is not advisable to plant, hit-or-miss, whatever happens to be handiest or perhaps cheapest. Rather, make a careful selection of the trees that will group well together, and give a pleasant view to the landscape. If you do not know just how to do this, send us a sketch of your place, and about how much you wish to expend. We may be able to help you in this matter.

With our long experience in this line we are in a position to be of much assistance to our friends and customers and we willingly and gladly offer to do so without charge. Everyone, of course, has ideas of his own and in writing us we suggest that you give us these ideas of what you would like to see, or what particular plants are your favorites and wish included in any plans. Also send us a rough sketch of your grounds showing position of buildings and trees or shrubs already planted, together with measurements of grounds and buildings. If we can be of service to you in this or any other way, in our line of work, do not hesitate to write us. We cheerfully place our service at your command.

We will gladly give you plans for Rose, Perennial or Shrub Garden, or plan the growing stock around the house. Write us.

100 Perennials for \$15.00

Convertible Planting Plan No. 261

Two oblong shapes, 4 x 20 feet, form the basis of this plan and they may be employed in a variety of ways in laying out the Perennial Garden.

A Center Entrance

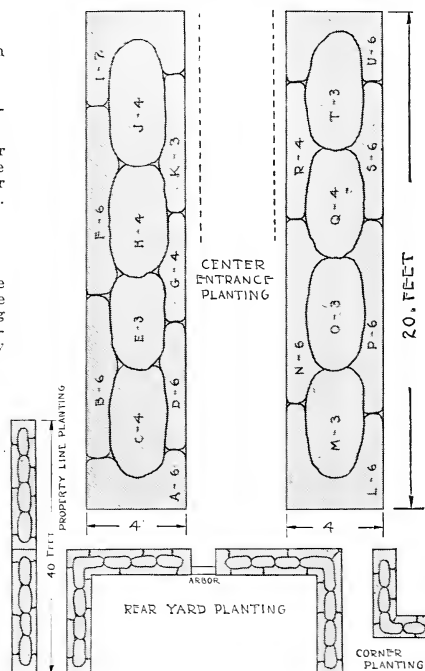

20 feet long for each side of the walk.

A Cosy Corner Planting Plan, L Shape

By combining either one or two of these plans, adaptable for front or rear garden.

A Long Perennial Bed

By combining the two plans suitable for a border planting paralleling the driveway or the property line.

Landscape Department

For decorative results, plants must be arranged with regard to height, habit of growth and color of bloom. Your planting problems are everyday affairs with us. Send pencil sketch of grounds, buildings, trees and permanent plantings, with measurements and we'll gladly prepare a plan in harmony with your surroundings. The plans shown below may be adapted to various types of homes by slight variation.

Offer No. 273, Regular Value, \$12.70

SPECIAL PRICE, \$11.50

New Japanese Red Leaved
Barberry

A. mollis (Japanese Azalea). A very fine, hardy species from Japan, yielding a mass of large flowers. 4 to 5 feet. May and June. Mixed colors. 12 to 15 inches, each \$2.50.

Barberry, Thunbergii. A pretty plant of dwarf habit from Japan, beautiful red in the fall. All Barberries make fine hedges. 4 feet. 12 to 18 inches, each, 25c; 10 for \$2.00; 100 for \$18.00; 18 to 24 inches, each, 35c; 10 for \$3.00; 100 for \$25.00.

Barberry, Japanese Red Leaf. It is only once in a lifetime that a really worthwhile, outstanding novelty in hardy shrubs is introduced, and in this new Barberry we have such a plant. It is similar in all respects to the green-leaved Japanese Barberry, which is so popular for mixing in the shrubbery border, as single specimens, or for planting in clumps on the lawn, as well as for foundation plantings and for hedges; but the foliage of this new variety is of a rich, lustrous, bronzy red, similar to the richest red-leaved Japanese Maples. However, unlike these and other colored shrubs in which the coloring fades or disappears entirely as the season advances, this new Barberry becomes more brilliant and gorgeous throughout the summer, and in the fall its foliage changes to vivid orange, scarlet and red shades, more brilliant and more effective than the ordinary Japanese Barberry. In this coloring it is unequaled by any other shrub and is followed by the same brilliant scarlet berries common to the type, which remain on the plant the entire winter. All that is required to develop its brilliant coloring at all seasons is that it be planted in full exposure to the sun. Price, 2-year plants, \$1.50 each.

Deciduous Shrubs

Allspice, Caroline (Calycanthus, Allspice or Sweet Shrub). An interesting shrub having rare and peculiar fragrance of wood and flowers. It blooms abundantly in June and at intervals through the summer. 6 feet. Flowers chocolate brown in color. 18 to 24 inches, each, 60c.

Almond, Double Flowering. A beautiful small shrub blooming in May. The branches are literally covered with flowers the size and shape of daisies, double white and double pink in color. 2 to 3 ft., each, \$1.00.

Althea (Rose of Sharon). This beautiful shrub flowers late in the summer when most others are out of bloom. It bears large, double flowers similar to the Hollyhock, very abundantly on strong, erect branches. Of easiest cultivation. We have them in white, red, pink and purple, all double. Also single white and single blue. 2 to 3 ft., each, 50c; 10 for \$4.50.

Variegatus. Leaves bright green, broadly margined with light yellow; very showy. 15 to 20 inches, each, 50c; 10 for \$4.50.

AZALEA

Are among the very finest of hardy shrubs. They bloom profusely in May and June in all shades of lemon, orange, salmon and red. Our plants are well provided with flower buds and a ball of earth on their roots, so that they are sure to grow and bloom the first spring. By express or freight only.

Rose of Sharon—Althea

DEUTZIA

Crenata. A shrub bearing luxuriant foliage and a profusion of double white flowers on long racemes. 6 to 8 feet. June. 2 to 3 ft., each, 50c; 10 for \$4.00.

Gracilis. A charming dwarf variety. Yields a mass of pure white flowers about Decoration Day. 2 feet. 15 to 18 inches, each, 50c; 10 for \$4.00.

Lemoinei. Bears large, cone-shaped panicles of flowers of purest white. 3 to 4 feet. June. 2 to 3 ft., each, 50c; 10 for \$4.00.

Pride of Rochester. Double white, back of petals tinged with rose. Exceeds other varieties in size of flower and length of panicle. 2 to 3 ft., each, 50c; 10 for \$4.00.

Dogwood, Variegated (Cornus Elegantissima). One of the handsomest variegated-leaved shrubs. Bark brilliant red, leaves green, broadly margined with white. 2 to 3 ft., each, 80c; 10 for \$7.00.

Dogwood, Red Barked (Cornus Sanguinea). A shrub with blood-red bark and clusters of fine white flowers. 2 to 3 ft., each, 40c; 10 for \$3.50.

Eleagnus (Oleaster). The "Goumi" of Japan. A handsome, silver-leaved shrub bearing bright yellow flowers and orange-red, edible berries, about ½ inch long, which make delicious sauce. Showy and useful. 18 to 24 inches, each, 50c; 10 for \$4.50.

ELDER - Sambucus

Cut-Leaved. Its foliage is finely split up like the fingers of the hand. Very fine and interesting. Besides, it bears great clusters of fragrant

flowers with an abundance of useful berries. 2 to 3 ft., each, 60c; 10 for \$5.00.

Golden Leaf. Very handsome, with golden-yellow foliage. Elegant either in a mass by themselves or with other shrubs having a foliage of contrasting colors. 2 to 3 ft., each, 40c; 10 for \$3.50.

Variegated Leaf. Similar to Golden Elder except that the green leaves are variegated with white and yellow. Quite pretty and interesting. 2 to 3 ft., each, 60c; 10 for \$5.00.

Forsythia (Golden Bell). A hardy shrub, blooming early in spring before the leaves appear. The branches are arching, bearing dark, lustrous green leaves. Flowers golden yellow, often with twisted petals. One of the best of the early flowering shrubs. 2 to 3 ft., each, 50c; 10 for \$4.00.

Fringe, Purple (Smoke Tree). A shrub or small tree of spreading habit covered in mid-summer with a profusion of dusky hair-like flowers that give the appearance of mist or smoke. Strikingly peculiar and beautiful. Requires plenty of room to grow to best advantage. 2 to 3 ft., each, \$1.00.

Fringe, White (Chionanthus). A small native tree having large glossy leaves. It produces clusters of long pure white flowers in May and June that droop down and appear like fringe. 10 feet, white. 2 to 3 ft., each, \$1.00.

HONEYSUCKLE - Bush

Fragrant. The upright-growing honeysuckles are valued for their bright and fragrant flowers and showy berries. Also very fine for hedges. Very hardy. 2 to 3 ft., each, 50c; 10 for \$4.00.

Morowii. A species from Japan. It is a strong, upright grower. Creamy white flowers followed by deep red berries which ornament the bush until autumn. 2 to 3 ft., each, 50c; 10 for \$4.00.

Tartarian Pink. Bears pink flowers in great abundance. 2 to 3 ft., each, 50c; 10 for \$4.00.

HYDRANGEA

Arborescens Grandiflora (Hills of Snow). New. Blooms most abundantly from June to September. Flowers are pure snow-white, and its panicles, which are flat, often measure 12 inches across. Moreover, it is perfectly hardy and of the easiest culture. 6 ft. 2 to 3 ft., each 60c; 10 for \$5.00.

Paniculata Grandiflora, Bush Form. One of the most popular of hardy shrubs. It has large, rich, abundant foliage and immense, pyramidal-shaped panicles of white flowers in August which continue until frost. Fertilize well and prune severely. 18 to 24 inches, each, 50c; 10 for \$4.00; 2 to 3 ft., each, 60c; 10 for \$5.00; 3 to 4 ft., each, 80c; 10 for \$7.00.

Paniculata Grandiflora, Tree Form. Identical with above bush form, but trained in tree shape. Very ornamental and pleasing for either background planting or individual specimens. Price, 3 to 4 ft., each, \$1.25.

Deutzia—Pride of Rochester

Forsythia—Golden Bell

Hypericum. A small shrub bearing large, yellow flowers in great abundance during most of the summer. Very fine. 12 to 18 inches, each, 60c.

Kerria Japonica (Double Flowering). Flowers of rich yellow borne along slender and graceful stems of bright green color. One of the first to blossom in the spring. 2 to 3 ft., 75c; 10 for \$6.50.

LILACS

The Lilac is a well-known, very hardy shrub of easiest culture. The flowers grow in large panicles and are both gay and deliciously fragrant. The Lilac appears to best advantage when massed in groups. It is easily transplanted in either fall or spring. Moderately rich, moist soil suits it best. The dead flowers should be removed when the blooming season is over, as they give an untidy appearance; should not be pruned in winter or spring, as it destroys the flowers.

Common White and Purple. Old fashioned, but well known. 2 to 3 ft., each, 50c; 10 for \$4.00.

Persian. A dwarf variety of slender growth, small leaves and loose panicles of flowers. Very pretty among other shrubs. Furnished in separate colors. White and Purple. 2 to 3 ft., each, 75c; 10 for \$7.00.

New French Named Varieties. These Hybrids have attracted a great deal of worthy attention since their introduction. Their large panicles of very fragrant flowers are a wonder of beauty in their different colors and shades. 2 to 3 ft., each, \$1.00; 10 for \$9.00.

Alphonse Lavallee. Blue shaded violet.

Emile Lemoine. Double pink.

Ludwig Spaeth. Dark purplish red.

Mad. Casimer Perier. Double white.

Pres. Grevy. Semi-double white.

Rubra de Marley. Reddish purple.

Japan Tree. Largest Lilac known. Sometimes 30 feet high. Produces large panicles of creamy white. Very fragrant. July. Each, \$1.00.

Maple, Japanese. The Japanese Maple is of very slow, dwarfish growth. It takes many years to reach even 8 feet, but it is exceedingly beautiful, graceful and interesting. We offer it in purple leaf only. Price, 18 to 24 inch, each, \$6.00.

Plum, Double Flowering (Prunus Triloba). Blooms much like flowering Almond, but earlier and larger, of a delicate pink color. Hardy and exceedingly handsome. 2 to 3 ft., each, \$1.00.

Plum, Purple Leaf (Prunus Pissardi). The foliage is of a bright purplish-red, remaining so all through the season. Entirely hardy. One of the most valuable hardy shrubs on the list. 4 to 5 ft., each, \$1.00; 10 for \$9.00.

PHILADELPHUS - Mock Orange

Aureus (Golden Leaf). Dwarf and very compact. Foliage is very dense and golden yellow throughout the season. Hardy and useful for grouping. 2 to 3 ft., each, 65c; 10 for \$5.50.

Coronarius (Double Flowering). A double and fragrant variety. 2 to 3 ft., each, 50c; 10 for \$4.00.

Grandiflora (Large Flowering). One of the most vigorous shrubs, having large, snow-white, fragrant flowers. 3 to 4 ft., each, 50c; 10 for \$4.00.

Lilac White

Snowberry

Philadelphus Virginialis. A pleasing new variety with good foliage. The flowers are the largest, handsomest and most fragrant of all the Mock Oranges. After blooming profusely in early June, it blossoms more or less until fall. A wonderful addition to flowering shrubs. Price, 2 to 3 ft., each, \$1.00; 10 for \$9.00.

Quince, Japan (Cydonia). Bears a profusion of bright scarlet-crimson flowers before the leaves appear. Makes a lovely hedge and can be trimmed to any shape desired. 6 feet. May. 2 to 3 ft., each, 50c; 10 for \$4.50; 100 for \$40.00.

SNOWBALL - Viburnum

Common (Viburnum Sterile). One of the best known old shrubs, bearing large balls of beautiful, snow-white flowers in June. The old fashioned Snowball. Perfectly hardy. 8 feet. 2 to 3 ft., each, 50c; 10 for \$4.00.

Japanese (Viburnum Plicatum). A very popular shrub. An upright grower, with fine, dark crimped foliage and densely covered with large balls of pure white flowers. 8 feet. June. 2 to 3 ft., each, \$1.00; 10 for \$9.00.

High Bush Cranberry (Viburnum Opulus). Ornamental as well as useful. Its white flowers are followed by clusters of red berries resem-

bling cranberries which remain on the bushes a long time, hanging in pendent clusters nearly all winter. A very desirable ornament to any lawn. 2 to 3 ft., each, 50c; 10 for \$4.00.

SNOWBERRY

White. A slender, medium-growing shrub, which does well in any soil and will flourish under trees and in shady places where little else will grow. Leaves are dark green and slender, small rose-colored flowers in June and July. Clusters of attractive milk-white berries which last until late in the winter. Grows 3 to 5 feet high. Very attractive as a hedge. 2 to 3 ft., each, 50c; 10 for \$4.00.

Red (Indian Currant). A desirable shrub for shady places. Grows 3 to 5 feet tall, producing inconspicuous rose-colored flowers in June and July. Its dull red coral-like berries cling in great profusion along the under side of the branches. One of the showiest of the berried shrubs. Fine as a hedge. 2 to 3 ft., each, 40c; 10 for \$3.50.

SPIREA

Anthony Waterer. Has large heads of dark crimson flowers, blooming all summer. 2 feet. 18 to 24 inches, each, 60c; 10 for \$5.50.

Callosa Alba. A white flowering variety of dwarf, bushy, symmetrical form. Blooms all summer. 2 feet. 15 to 18 inches, each, 40c; 10 for \$3.50.

Opulifolia Aurea (Golden Leaf). Golden-yellow foliage and double, pure white flowers in June. A beautiful variety of Spirea. 2 to 3 ft., each, 50c; 10 for \$4.00.

Prunifolia (True Bridal Wreath). Bears pure white, double, daisy-like flowers in great masses in May and June. 6 feet. 2 to 3 ft., each, 60c; 10 for \$5.00.

Thunbergii. A dense, feathery bush of neat and graceful habit. It bears masses of pure white flowers in May and June. Its foliage changes to a bright orange and crimson in the fall. 18 to 24 inches, each, 60c; 10 for \$5.00.

Van Houttei. This variety is not only the finest Spirea, but it is one of the best of all shrubs. Literally a fountain of bloom. White. 5 feet. June. 2 to 3 ft., each, 40c; 10 for \$3.50; 100 for \$30.00.

Tamarix Africana. A very hardy, vigorous-growing shrub having curious, small, scale-like leaves and myriads of small, rosy-pink flowers that appear before the leaves. Very pretty. 8 feet. May. 2 to 3 ft., each, 50c; 10 for \$4.00.

WEIGELA - Diervilla

Candida. Flowers are pure white and are produced in great profusion in June; also more or less all summer. 2 to 3 ft., each, 50c; 10 for \$4.00.

Eva Rathke. Flowers brilliant crimson. Very fine. Blooms all summer. 2 to 3 ft., each, 80c; 10 for \$7.00.

Rosea. Fine, rose-colored flowers. Elegant. 2 to 3 ft., each, 50c; 10 for \$4.00.

Sieboldi. When the leaves are young the variegation is yellow; as they become mature they turn to a silvery white. Flowers rose-colored. 2 to 3 ft., each, 50c; 10 for \$4.00.

Winterberry (Ilex). A handsome bush of moderate growth. Blooms in June and produces masses of bright crimson berries by October, which remain almost all winter. 6 to 8 feet. Requires a moist soil. 1½ to 2 ft., each, 75c; 10 for \$6.50.

Spirea Van Houttei

Hedge Plants

Plant deciduous hedge plants six inches apart, and after the first season cut them down to within four inches of the ground. From these stubs many sprouts will start the next season, and that makes it dense from the ground up, which is a necessity for a good hedge.

To make a satisfactory hedge the ground should be well prepared before planting. If the soil is of poor quality a trench should be dug 15 to 18 inches in depth and filled with good, rich soil. This will insure strong and rapid root growth.

CALIFORNIA PRIVET (*Ligustrum ovalifolium*). Is the most popular. A free, rapid grower with dense, dark green foliage. Submits to shearing to any extent and shape. Holds its foliage up to the holidays in this vicinity and is evergreen south of Pennsylvania. Plants are cheap, free from thorns, and do not sprout or sucker from the roots. Price for 18 to 24 inch plants, \$6.00 per 100; \$50.00 per 1000; 2 to 3 foot plants, \$8.00 per 100; \$75.00 per 1000.

Chinese Privet (*Ligustrum Amurense*). The hardiest of the Privets. One quarter additional to prices of California Privet.

JAPAN BARBERRY (*Berberis Thunbergii*). This is a dwarf barberry; very hardy and very ornamental. Its yellow flowers are followed by bright scarlet berries. In the fall its foliage turns to scarlet and gold. Price per 100, 12 to 18 inches, \$18.00; 18 to 24 inches, \$25.00.

JAPAN QUINCE and TARTARIAN HONEY-SUCKLES are also very suitable for hedges. See pages 42 and 44.

Barberry Thunbergii

50 Barberry Thunbergii, 12 to 18 in., will make 50 ft. of hedge, for \$9.00.

HONEY LOCUST makes one of the best and strongest thorny hedges for enclosing horses and cattle. Its foliage is also very pretty and graceful. Price of 1-year plants, \$2.00 per 100; \$15.00 per 1000; 2-year, \$2.50 per 100; \$20.00 per 1000.

OSAGE ORANGE grows still stronger and makes a hedge "horse high, bull strong and pig tight." Price of 1-year plants, \$1.50 per 100; \$10.00 per 1000; 2-year plants, \$2.50 per 100; \$15.00 per 1000.

TAKE ADVANTAGE OF
OUR SPECIAL OFFERS

A Hedge of California Privet and a Catalpa Bungel or Umbrella Tree

Evergreen Hedges

Dwarf Box makes a very pretty little Evergreen hedge or border along paths, etc., about 18 inches high. Plant four inches apart. Price, 4 to 6 inch plants, \$20.00 per 100.

Norway Spruce and **American Arbor-Vitae** make fine evergreen hedges, strong enough to turn horses and cattle. By shearing hedges annually, while the young wood is still soft, they can be kept down to four or five feet high. Plant one foot apart. For windbreaks, plant four feet apart and allow them to grow up to fifteen or more feet high.

Prices on Pages 38-39.

Trimmed Norway Spruce Hedge

Forest Tree Seedlings

As the natural forests of the country are fast disappearing it is well to take steps now to provide for a future supply of timber for building and the industrial arts. Some varieties are so scarce and high priced even now as to promise splendid results from an investment along this line. Besides, there are large tracts denuded of the natural forest and worthless for anything else, which with a little care and expense would grow timber very profitably.

Plant deciduous trees, as **Catalpa**, **Locust**, etc., about one by four feet apart and cultivate for a year or two. After that they take care of themselves. Close planting causes them to crowd one another and grow long and straight. In three to five years the harvest begins by thinning them out, using the thinnings for bean, hop, and hoop poles, etc.; a few years later for stakes, posts and kindred uses. After they get to be some thirty feet high and are thinned to ten or twelve feet apart they grow into money very fast, and may be left to grow as long as desired without further thinning.

For evergreen forest trees, see "Evergreens," on page 47. Can quote special low rates by the 1000 and 10,000 upon request, stating varieties, sizes and number of each wanted.

Price List of Forest Tree Seedlings

	100	1000
Black Walnut, 1-yr., 12 to 18 in...	\$4.00	\$30.00
Butternut, 1-yr., 10 to 15 in.	4.00	30.00
Black Locust, 1-yr., 12 to 18 in. . .	2.00	15.00
Catalpa Speciosa, 12 to 18 in.	2.00	15.00
Russian Mulberry, 1-yr., 12 to 18 in.	2.50	20.00

BLACK WALNUTS and **BUTTERNUTS** are well-known trees. Very valuable both for nut and timber, but especially the latter. Their nuts pay for their keep, leaving the timber clear gain.

THE BLACK LOCUST is a well-known tree that will grow and do well on any high or rough land, where almost all other trees and crops fail. It should be extensively planted for fence posts. The life of the locust fence post is known to be more than fifty years.

CATALPA SPECIOSA. A very hardy and most rapid-growing forest tree. Its timber is very useful in the arts because it is light, strong and tough. It is also durable, hence very useful for grape posts, railroad ties, telegraph poles, etc.

THE RUSSIAN MULBERRY is one of the best known trees to plant for windbreaks around orchards, buildings, etc. Makes homes and provides favorite food for birds, which will destroy without cost more insects around an orchard than can possibly be killed by experienced spraying. The wood is heavy, tough, hard and strong, makes excellent wagon felloes, hubs, tool handles, insular pins, fence posts, and is a beautiful golden color. Has been known to last for fence posts more than eighty years. Not easily burned, which makes it an excellent post along railroads or places exposed to fire.

English Filbert

Street Planting of Oriental Plane Trees

Weeping Deciduous Trees

Birch, (Cut-Leaved Weeping). Deservedly one of the most popular of all weeping trees. A strong, upright grower with graceful drooping branches, silvery white bark and delicately cut foliage. 4 to 5 ft., each \$2.50.

Cherry, Japan Weeping. A beautiful variety of flowering cherry, with long, drooping limbs that reach the ground. Flowers of rosy pink cover these long, slender branches with masses of rosy bloom in early spring. 5 to 6 ft., \$3.50 each.

Elm, Camperdown Weeping. A vigorous weeping tree, sufficient in itself to make a good-sized arbor. Very rapid grower. Leaves are large, dark green and glossy, and cover the tree with a dense mass of verdure. Each, \$2.50.

Mulberry, Tea's Weeping. A graceful, beautiful weeping tree, forming a perfect umbrella-shaped head, with long, slender, willowy branches drooping to the ground, gracefully swaying in the wind. Foliage lobed and of a delightfully fresh, glossy green. A rapid grower and exceedingly hardy. It bears edible berries in abundance—black and very sweet. Each, \$2.50.

Willow, Wisconsin Weeping. Very much like the Babylonian Willow but hardier. 6 to 8 ft., each, 85c.

Wisconsin Weeping Willow

Ivanhoe, Texas.
January 25th, 1926.
Gentlemen: The Niagara grape vines I ordered from you four years ago are fine grapes.
Yours truly,
C. W. FORSBERG.

Kinzers, Pa.
April 4th, 1926.
Dear Sirs: The vines I got from you four years ago are the finest in the country.
Yours truly,
GEORGE R. FEISTER.

Deciduous Trees

Bird Cherry (Cerasus). A handsome, medium-sized tree. It blooms in clusters of about 1¼ inches in diameter and five inches long, drooping gracefully from the branches, and looking very much like white candies on a Christmas tree. Very pretty and interesting. Its flowers are followed by red berries which finally turn black and are greedily devoured by birds. 5 to 6 ft., each 85c.

Catalpa Bungei (Umbrella Catalpa). Grafted on stems 6 to 8 feet high, it makes a symmetrical, umbrella-shaped head without pruning. The leaves are large, heart-shaped, look like shingles on a roof. Hardy and succeeds everywhere. Very unique and desirable. 6 to 8 ft., 2-year heads, each, \$2.50; 1-year heads, each, \$2.00.

Catalpa Speciosa. A rapid-growing park, street or forest tree. Bears large, luxuriant, heart-shaped foliage and clusters of flowers similar to the horse chestnut but larger. Ornamental as well as useful. Very hardy. 6 to 8 ft., each, 70c; 10 for \$6.00. 8 to 10 ft., each, 90c; 10 for \$8.00.

Crab, Bechtel's Double Flowering. The tree is of medium size, covered in May with a mass of large, double, fragrant flowers of a delicate pink. Very beautiful and popular. 3 to 4 ft., each, \$1.25; 10 for \$11.50.

Dogwood, White Flowering (Cornus). A small native tree producing pure white flowers 3 to 3½ inches in diameter, early in spring before the leaves begin to appear. Very showy. 3 to 4 ft., each, \$1.00.

White Flowering
Dogwood—Cornus

Catalpa Bungei—Chinese Catalpa

Dogwood, Red Flowering (Cornus). Similar to the above except that the flowers are a deep rosy pink color. Especially attractive. 3 to 4 ft., each, \$3.00.

Elm, American. The noble, drooping and spreading tree of our forests. One of the grandest park or street trees. 8 to 10 ft., each, \$1.50; 10 for \$13.50; 10 to 12 ft., each, \$2.00; 10 for \$17.50.

Horse Chestnut, White Flowering. This is a well-known tree of symmetrical form, dense habit, dark green foliage, producing large spikes of white flowers abundantly early in spring. 5 to 7 ft., each, \$1.75.

Judas Tree (Red Bud). A very ornamental native tree of medium size. Beautiful in foliage and flower. The latter are small, delicate, reddish purple and appear in great abundance before the foliage. 5 to 6 ft., each, \$1.00.

Laburnum, Scotch (Golden Chain). A small tree with smooth, shining leaves and long, drooping racemes of showy yellow flowers. Very ornamental. 3 to 4 ft., each, \$1.00.

LINDEN

American (Basswood). A rapid-growing, beautiful native tree, with large leaves and fragrant flowers, rich in honey. 6 to 8 ft., each, \$1.75.

European (Lime Tree). A large, upright pyramidal-shaped tree. Excellent for street or park. 6 to 8 ft., each, \$1.75.

Silver. Handsome, vigorous tree with large leaves, whitish on under side. Beautiful when stirred by the wind. One of the best. 6 to 8 ft., each, \$1.75.

MAPLES

Silver Leaved (Soft Maple). An excellent shade tree of rapid growth. Desirable for quick effects. It succeeds much better on cold, wet clay land than Sugar or Norway Maples. Very hardy variety. 8 to 10 ft., each \$1.50; 10 for \$13.50; 100 for \$125.00; 10 to 12 ft., each, \$1.75; 10 for \$16.00; 100 for \$150.00.

Wier's Cut-Leaved. A Silver Maple with remarkable and beautiful dissected foliage. A rapid grower, shoots slender and drooping, giving it a very graceful appearance. 8 to 10 ft., each, \$2.00.

Ash Leaved (Box Elder). A rapid-growing, very hardy shade tree with light green foliage. Succeeds where many others fail. 8 to 10 ft., each \$1.00; 10 for \$8.50.

Norway (Hard Maple). A distinct, foreign variety with large, broad leaves of a deep, rich green color. The most desirable for street, park or lawn. 8 to 10 ft., each, \$2.50; 10 for \$22.50.

Schwedler's Purple Leaf. A purple-leaved variety of the Norway Maple. The young shoots and leaves are of a bright crimson color, changing to a purplish green in the older leaves. Very valuable. 6 to 8 ft., each, \$3.50.

Sugar (Rock Maple). A well-known native tree, having a very symmetrical, dense head. One of the best shade trees for street or park. This variety is also valuable for sugar-making and timber. 8 to 10 ft., each, \$1.75; 10 for \$16.50.

Maiden Hair Tree (Salisburia). A singular, cone-bearing deciduous tree with peculiar leaves. Beautiful. Very effective for lawns; foliage fern-like, yellowish green. 5 to 7 ft., each \$1.35.

Mountain Ash, European. A fine, hardy tree, the head is dense and regular, covered in June with a mass of white flowers, later with yellow berries, which turn into bright scarlet and last long into winter. Very beautiful. 6 to 8 ft., each, \$1.75; 10 for \$15.00.

Peach, Double Flowering. A striking and most beautiful tree when in bloom in May. Its flowers are of a lively rose color, double and abundant. 3 to 4 ft., each, 75c.

Plane, Oriental (Sycamore). A large and elegant street or park tree, bearing luxuriant leaves of the shape of the grape leaf. Bark very light green, trunk mottled. Free from insect enemies and diseases. Stands coal smoke as well as any tree. 8 to 10 ft., each, \$2.00; 10 for \$18.00.

Poplar, Carolina. Of rapid growth and pyramidal form, with large, glossy leaves. One of the most popular shade trees. 8 to 10 ft., each, 60c; 10 for \$5.50; 100 for \$40.00; 10 to 12 ft., each, 80c; 10 for \$7.00; 100 for \$60.00.

Poplar, Lombardy. Well-known and remarkable for its erect, spire-like form. 8 to 10 ft., each, 75c; 10 for \$6.00; 10 to 12 ft., each, \$1.00; 10 for \$8.00.

Norway Maple

Strawberry Tree (Euonymus). A small tree of very great beauty, bearing a dense mass of brilliant rose-colored berries which last into mid-winter. Entirely hardy. 4 to 5 ft., each, 75c.

Thorn, Paul's Double Scarlet (Hawthorn). A small tree or large bush with spreading branches. Flowers bright scarlet, large, full, very double. 3 to 4 ft., each, \$1.25; 10 for \$11.50.

Thorn, Double White (Hawthorn). A shrub or small tree with spreading branches and beautiful double white flowers disposed in branched corymbs. 3 to 4 ft., each, \$1.25; 10 for \$11.50.

Tulip Tree. This is one of the grandest of our native trees with large glossy leaves of peculiar shape and beautiful tulip-like flowers. A large tree in full bloom is a magnificent sight. 6 to 8 ft., each, \$1.50.

American White Elm

Climbing Vines

CLEMATIS - Virgin's Bower

Jackmani. The flowers when fully expanded are from four to six inches in diameter. Rich purple, with a velvety appearance. Blooms profusely and continually from July until frost. 2 year, each, 75c; 3 year, each, \$1.00.

Henryi. This variety has even larger and more perfect blossoms than the Jackmani, is white as snow, but not quite so prolific. 2 year, each, 75c.

Mad. Ed. Andre. Of a beautiful bright velvety red. A little smaller than Jackmani, but a very free bloomer. 2 year, each, 75c.

Romona. Very hardy and vigorous grower. Flowers are very large, light blue and abundant. 2 year, each, 75c.

Paniculata. A Japanese vine of exceedingly rapid growth and a most profuse bloomer. The flowers are small, white, fragrant, produced in great panicles. Very popular. 2 year, each, 40c; 10 for \$3.50.

Dutchman's Pipe (*Aristolochia Sipho*). A splendid, well-known vine with heart-shaped, light green leaves 10 to 12 inches in diameter and queer pipe-shaped, yellowish flowers and of rapid growth. 2 year, each \$1.00.

Euonymus Radicans. An evergreen vine very useful for covering walls and unsightly objects. Its fruit pods open and expose its bright scarlet seeds for a long time during the winter. Very pretty. 12 to 18 inch, each, 50c.

HONEYSUCKLE - Lonicera

Hall's Japan (*Halliana*). Very vigorous. Flowers open pure white and change to yellow. Very fragrant and floriferous. Leaves remain green until midwinter. 2 year, each, 40c; 10 for \$3.50.

Monthly Fragrant (*Belgica*). Blooms all summer. Very fragrant. Colors red and yellow. 2 year, each, 50c.

Japan Ivy

Clematis Paniculata

Scarlet Trumpet (*Sempervirens*). A rapid grower, producing clusters of scarlet, trumpet-shaped flowers in great abundance. Very handsome. 2 year, each, 50c.

IVY

American or Virginia Creeper (*Ampelopsis Quinquefolia*). One of the most rapid growing varieties of native American vines. Useful for quickly covering arbors, verandas, walls and unsightly objects. 2 year, each, 35c; 10 for \$3.00.

Japan or Boston Ivy (*Ampelopsis Veitchi*). One of the finest ornamental climbers. It clings firmly to stone, brick or wood, and is entirely hardy. Foliage small but rich and dense, changing in autumn to carmine and gold of exceeding brilliancy. 2 year, each, 50c; 10 for \$4.00.

Silver Sweet Vine (*Actinidia*). Excellent for covering walls, large trellises and screens. It has broadly lanceolate, bright green foliage; flowers white, with black anthers, fragrant and very freely produced. 2 year, each, \$1.00.

Trumpet Flower (*Bignonia Radicans*). A rapid grower and blooms almost all summer. Flowers bright scarlet and of trumpet shape. 2 year, each, 40c; 10 for \$3.50.

WISTERIA

Chinese Blue. Vines grow 15 to 20 feet in a season and produce long, hanging clusters of pale, blue flowers in spring and fall. 2 year, each 60c.

Chinese White. Same as above except that flowers are pure white. 2 year, each, 60c.

Multijuga (*Japanese Loose-clustered*). Produces dark blue flowers which are sometimes a yard long. 2 year, each, 75c.

Evergreens

Arbor Vitae, American. A well known variety of great value; it forms an upright, conical tree of medium size, stands trimming well and is considered a fine evergreen for screens, being hardy and more easily transplanted; very dense and impervious to the sight. This evergreen will adapt itself to all locations, but does especially well in moist soil. **Prices, 1½ to 2 ft., \$1.50 each; 10 for \$13.50; 2 to 3 ft., \$2.00 each; 10 for \$17.50.**

Arbor Vitae Pyramidal. An extremely compact growing, narrow pyramidal-shaped evergreen with spray-like foliage. Deep, rich green color. The growth is regular, close and compact. Requires little space, which makes it desirable for planting near the house in foundation plantings. Plant as a single specimen or in groups of two or three at either side of the entrance or at corners of a lawn or building. It breaks the sharp outline and the ornamental effect is most pleasing. Reaches a height of 10 to 15 feet, but by annual pruning can be kept at any desired height. **Prices, 1½ to 2 ft., \$3.00 each; 2 to 3 ft., \$3.75 each.**

Arbor Vitae Globosa. Without doubt the best globe-shaped evergreen. Maintains its natural globe-shape without trimming. Especially fine for low borders, for foundation groups, or for tubs. **Prices, 15 to 18 in., \$3.00 each.**

Our Evergreens are dug with a ball of earth on their roots and tied on with burlap. This is the best and safest way to transplant them.

A Beautiful Specimen of
Irish Juniper

Juniper Virginian
Sheared Specimen

FIRS

American Balsam. A very strong, symmetrical-growing, pyramidal tree. Its foliage is dark green on the upper and silver white on the under side. It is very hardy and generally successful. **18 inches, each, \$2.00; 10 for \$18.00.**

Silver or White. The most beautiful Fir known. Both upper and lower sides of the needles are a grayish blue. Grows very shapely and pyramidal in form. **18 to 24 inches, each, \$3.00.**

JUNIPERS

Irish. A popular variety. Very erect, forming a column of deep green foliage. Useful in small places and for contrast. **2 to 3 ft., each, \$2.50.**

Virginia (Red Cedar). A very well-known native tree. Makes a fine ornamental hedge. **2 to 3 ft., each, \$2.50.**

Received in Excellent Condition

Pensacola, Fla., Mar. 22, 1925.

West Hill Nurseries, Inc.

Gentlemen:—The grape vines reached here in excellent condition and time. Sincerely yours,

MR. H. E. LINTON

Evergreen Trees

PINES - Pinus

Austrian (Austriaca). A remarkably robust, hardy, spreading tree, leaves long, stiff and dark green. A rapid grower. A native of Syria and very valuable for this country. 18 to 24 inches, each, \$2.00.

Japan Red Pine (Densiflora). A spreading tree resembling the Austrian Pine, but with longer, deeper green foliage. Very ornamental. 2-3 ft. trees, \$3.00 each.

Mugho (Dwarf Pine). A low, curious, spreading species attaining only the size of a bush. 10 to 12 inches, each, \$2.50.

Scotch (Sylvestris). A well-known, robust, rapid-growing tree of dull bluish-green foliage. 18 to 24 inches, each, \$2.00.

SPRUCE

Colorado Blue (Pungens Glauca). This is the choicest and most beautiful of all Evergreens. Of compact growth, symmetrical, pyramidal form, with foliage of rich steel blue color. Very hardy. 12 to 18 inches, each, \$4.00; 18 to 24 inches, each, \$6.00.

Hemlock (American Weeping). An elegant, pyramidal tree with drooping branches and delicate, dark green foliage. A lovely lawn tree, also makes a highly ornamental hedge. 18 to 24 inches, each, \$2.50.

Norway (Exeelsa). A valuable tree either as single specimen or for grouping; also makes a fine hedge. Very popular. 1½ to 2 ft., each, \$1.25; 10 for \$11.50; 2 to 3 ft., each, \$1.50; 10 for \$13.50.

Colorado Blue Spruce

Evergreen Shrubs

BUXUS - Box Tree

Tree Box (Arborescens). This is an elegant shrub with deep green, glossy, dense foliage, which may be pruned into any shape desired. 8 to 10 inches, each, \$1.00; 10 for \$9.00.

Dwarf Box (Sempervirens). Similar to the above but dwarf. Used for edging, 18 inches. 4 to 6 inches, each, 30c; 10 for \$2.50; 100 for \$20.00.

RHODODENDRONS - Rosebay

With its broad, glossy, evergreen foliage it is handsome at any time, but when in bloom in May and June it simply surpasses anything else in gorgeousness and magnificence. If possible, plant in a somewhat protected and shady situation. Enrich the soil with leaf mould and rotted manure, but no lime or ashes. If the soil is dry and loose, plant deep. With a little care in these particulars it will do well most anywhere. Our plants come with a ball of earth on their roots, and are sure to grow. 18 to 24 inches, each, \$5.00.

Splendid Trees and Speedy Shipment

Ironton, O., Apr. 9, 1925.

West Hill Nurseries, Inc.

Gentlemen:—Your order of trees and plants was received April 7th. They certainly are splendid trees. Accept my thanks for your speedy shipment, and also, your care in packing.

Yours very truly,

MR. W. O. NULL

Best Ever Bought

East Brimfield, Mass., May 1, 1925.

West Hill Nurseries, Inc.

Gentlemen:—Everything received from the West Hill Nurseries this Spring was very satisfactory. The grape vines proved to be the best we ever bought.

Very truly yours,

GEORGE C. PLIMPTON

Rhododendrons

52 Bay View Terrace, Newburgh, N. Y.

March 23rd, 1926.

Gentlemen: Enclosed please find my check for \$5.35 to cover the several plants and roses, as per enclosed order. If they prove half as good as the grape vines I got from you several years ago, I will be more than satisfied.

Yours truly,

JEAN J. TARTTER.

Offers No. 401-402 are Made Up of These 6 Varieties of Evergreens

Here is an especially beautiful selection of Evergreens that decorate the entrance to your home with dignity and charm. This selection is well fitted for a grouping for the doorway, a foundation planting in front of the house (the number of Evergreen offers you require to be determined by the area to be planted).

These Evergreens can be used in any recess in architecture, a path corner or on the lawn.

All West Hill Evergreens are burlapped in balls of earth on their fine roots and packed and delivered free to the transportation companies at Fredonia, New York.

How to Plant Evergreens

When planting set evergreens in tub of water so ball is covered for $\frac{1}{2}$ hour. Wet ground after planting, until like mud, then two pails of water each week for first summer.

We place no guarantee on Evergreens.

They carry more than the ordinary risk in shipping and transplanting.

OFFER No. 401 Medium Sized Evergreens

- 1 Colorado Blue Spruce, 1 to $1\frac{1}{2}$ ft.....\$4.00
- 1 American Arbor Vitae, 1 to $1\frac{1}{2}$ ft..... 1.50
- 1 Globosa, $1\frac{1}{2}$ to 2 ft..... 3.00
- 1 Pyramidal Arbor Vitae, $1\frac{1}{2}$ to 2 ft..... 3.00
- 1 Norway Spruce, $1\frac{1}{2}$ to 2 ft..... 1.25
- 1 Irish Juniper, 2 to 3 ft..... 2.50

Regular Catalog Price, \$15.25

OUR SPECIAL PRICE, \$16.00

You can get a dignified planting like this by planting Arbor Vitae, Junipers, Pines, Colorado Blue and Norway Spruces.

Tell us the space you wish to plant and the location of the door and windows, we will gladly make up a suggested collection. **WRITE US.**

Roses

Roses are easy to grow, if you will plant them well and observe a few simple rules. Roses prefer a sunlit place. A little protection in our Northern states, by banking the earth some 8 to 12 inches high around the stems. Plant so the bud will be 2 to 3 inches below the surface. Ground must be rich and mellow to give the best results.

With every order of 5 or more roses, we will give a 16 page book, "How to make them grow and bloom," free. You will find much practical value in it. It will be mailed as soon as your order is booked so that you may have a chance to read it before your rose bushes arrive.

HYBRID PERPETUALS

Price Postpaid, 75c each; 10 for \$7.00

The following are all hardy and yet a slight protection in exposed situations is desirable. They all bloom profusely in June and more or less throughout the summer and fall. Fertilize and prune freely.

American Beauty. Very large and double, of globular shape. Deep pink, shaded with carmine. Fragrance exquisite.

Clio. The perfection in Hybrid Perpetuals. Of delicate satin blush with a little deeper center. Large, well shaped and very double. Strong, robust, hardy and prolific. A jewel.

Frau Karl Druschki (Snow Queen). A new Rose of great merit. There is nothing in white Roses quite as fine as this. Pure white, large and of elegant form. The bush is vigorous and healthy with bright, robust and abundant foliage. Very hardy and very prolific.

Gruss an Teplitz. Color a very rich, lively crimson scarlet. Very fragrant. A vigorous grower and continual bloomer. One of the best.

J. B. Clark. A beautiful new Rose. A robust grower, bearing an abundance of scarlet flowers shaded with blackish crimson.

Jubilee. Deep crimson, shaded maroon. Almost black. Buds pointed. A wonderful Rose.

Margaret Dickson. Perfectly hardy and very vigorous. A free summer and autumn bloomer. Flowers white with pale flesh center, a waxy texture and delightful fragrance. A great acquisition.

Paul Neyron. The largest of all. Deep rose color. Free bloomer, vigorous grower.

Pink Druschki. Soft pink, full and double; vigorous grower and healthy, producing quantities of flowers all summer.

Soleil d'Or. New. This fills a long felt want. The only yellow Rose that is hardy and a perpetual bloomer. Besides it is large, very double and fragrant. Its color varies from clear yellow to old gold. It is a good, healthy grower. A decided acquisition.

ROSES (Hybrid Tea)

Price Postpaid, 75c each; 10 for \$7.00

Commonly known as monthly roses, are becoming very popular with many, because of their long blooming season. This class is an addition to our regular list. In selecting varieties, we have chosen only the very best and offer them to you with our strongest recommendations.

Duchess of Wellington. Large, well-formed buds, opening to semi-double, saffron-yellow flowers, stained with crimson and changing to lighter yellow. Fragrant and pleasing and of the utmost possible freedom of growth and bloom, so that it can be depended upon to produce all season. One of the roses necessary in any collection.

General MacArthur. A very sweet-scented American garden rose of more than ordinary merit. Brilliant, glowing crimson-scarlet buds, opening into full blooms of good keeping qualities. Vigorous, compact, spreading habit, free bloomer.

Columbia. Clear imperial pink, reverse of petals rosy, silvery-white; blooms of magnificent size and form, produced freely on stiff, erect canes; the strongest grower in the Hybrid Tea class. A giant of the LaFrance type. Price, 75c each postpaid. See back cover for color reproduction.

Killarney, Pink. Large, long-pointed buds, opening to large, loose blooms of flesh-color, borne on long, strong stems.

Frau Karl Druschki

Killarney, White. Sport of Killarney and very similar to it in size, shape and fragrance, but pure white in color.

Los Angeles. One of the most notable American garden roses. Its color is a luminous flame pink, toned coral, shaded translucent gold at base of petals. An upright, sturdy grower, bearing perfect, fragrant flowers on strong stems. Desirable in every garden.

Mme. Caroline Testout. The streets of Portland are bordered with thousands of these roses because the beautiful blooms are borne abundantly all summer on the strong, vigorous plants. The large, rounded flowers are bright satiny rose, with darker edges of petals bordered with silvery-pink.

Mme. Butterfly. While this is a sport of Ophelia, it shows an even better growth with more and larger flowers, in a brilliant pink, suffused apricot and gold. These flowers are in the ideal rose form, of good texture and fragrance, and are unusually enduring. The plant is free and fine in growth and habit; among the very best.

Mrs. Aaron Ward. A most desirable and dependable rose that will probably produce more flowers than any other yellow rose. Semi-double, cup-shaped, deep Indian yellow flowers; fragrant; blooms until frost.

Ophelia. This highly desirable rose is successful for out-door as well as for greenhouse culture. The beautifully formed, salmon-flesh flowers are borne on long, stout stems and are freely produced until frost. Large, dark green, leathery foliage; plant of vigorous, upright habit.

Margaret Dickson

Premier. A delightfully fragrant and beautifully formed rich, dark pink rose of good size. Stems long, strong and thornless; plant robust.

Red Radiance. A wonderful production. Vigorous, upright, bushy plants, bearing a continuous supply of very large, beautiful, red-erimson, velvety flowers, borne on long stems. Very dependable.

Souv. de Claudius Permet. A beautiful new salmon-yellow rose. The bud is long and pointed, which opens into a very large and full flower. Bush vigorous and branches erect. A wonderful addition to the rose list. Price, \$1.00 each, postpaid.

Killarney

Mme. Butterfly Roses Make a Pleasing Rose Garden

A Beautiful Specimen of Dorothy Perkins Pink Roses

Climbing Roses

These are particularly useful for training over arbors, verandas, pillars, etc., and for covering unsightly objects. All are rank growers and perfectly hardy.

Price, postpaid, each 65c; 10 for \$6.00.

Climbing American Beauty. In bloom very similar to the bush Rose of same name. Of strong climbing ability, good, healthy foliage and of abundant bloom.

Crimson Rambler. Of Japanese origin. Very vigorous bush, growing eight to ten feet a season after it is well established. Extremely prolific. It blooms in clusters of a beautiful crimson color that lasts a long time. It is a jewel.

Dorothy Perkins. Pink, quite similar to Crimson Rambler except in color, which is a clear shell pink. Blooms in clusters of 10 to 30 or more. Flowers are not only large for a Rambler, but well formed, very double and fragrant. Strong, healthy grower; very hardy.

Dorothy Perkins. White, equal to the splendid Dorothy Perkins Pink, but pure white.

Dr. Van Fleet. Absolutely hardy. Bears clusters of beautiful pink buds, on long stems, opening into large blush white flowers.

Excelsa (Red Dorothy Perkins). Free bloomer. Stronger grower. Double flowers of intense crimson. Very striking.

Silver Moon. To the rose lover who has not enjoyed Silver Moon, a delightful experience is in store in contemplating this extraordinarily vigorous climber, decorative all through the growing season by reason of its great canes and deep, rich foliage, but literally a wonder at

bloom-time for its long, well-shaped buds of faint yellow which open into immense pure white flowers, often reaching 4 inches or more in diameter. These blooms are semi-double and with very distinctly curled and curved center petals which surround the bright yellow and add piquancy to the whole effect. An indispensable white rose.

Yellow Rambler. Flowers light yellow and fragrant. Very vigorous, hardy and prolific.

HARDY TREE ROSES

This is an item in our rose assortment that we have been unable to offer for several years. They have always been popular because the manner of growth is strikingly different from other roses and when in bloom, gives a wonderful effect that attracts the eye instantly, even though the yard may be full of other trees and plants. Hardy Hybrid Perpetual varieties grafted on strong stems 3 feet high. We offer them in the following assortment of colors—red, pink, white and yellow. Price, each, \$2.50.

268 Main Street, Catskill, N. Y.

April 24th, 1926.

Gentlemen: Received the 1500 grapes in fine condition and have them all set out.

Yours very truly,

Hollyhock

Hardy Perennials

This class of plants, unlike shrubbery, die to the ground in the fall, but grow again from the same root in the spring, larger and richer every season. All that is necessary for their cultivation is to scatter a light coating of manure in the fall, and to keep the ground mellow and clear of weeds during the summer.

A collection of them is very interesting indeed. There is always something in bloom from early spring to late fall and some days most of them. A border of four to ten feet wide along a walk or drive is just the place for them. An Evergreen or Privet hedge makes a suitable background against which to offset their bright colors. Pinching off flowers when faded to prevent their going to seed keeps many of them in bloom much longer.

ACHILLEA

A. Rosy Milfoil. Foliage is deep green, finely cut. Flowers appear in large, flat heads in great profusion from June to late fall, and are a bright cherry-red. Very showy. 18 inches. Each 15c; 10 for \$1.25.

A. ptarmica fl. pl. (The Pearl). Bears clusters of pure white flowers abundantly all summer, fine for cutting. Also for cemetery planting. 12 to 18 inches, each 15c; 10 for \$1.25.

ANCHUSA

A. italica (Dropmore Var.) This variety yields an abundance of brilliant blue flowers deep as the Blue Gentian. 4 feet. June and July. Each 20c; 10 for \$1.50.

ANEMONE

Blooms in great profusion from August until severe frost. Splendid for cutting. 2½ feet.

A. japonica alba. Pure white with yellow center. Each 20c; 10 for \$1.60.

A. Queen Charlotte. Semi-double and of a beautiful pink color, often 4 inches across. Each 20c; 10 for \$1.60.

A. rubra. Rose color with yellow center. Each 20c; 10 for \$1.60.

A. Whirlwind. Splendid double white flowers 2½ to 3 inches across. Each 20c; 10 for \$1.60.

AQUILEGIA - Columbine

One of the showiest and dearest of hardy flowering plants. Does well in the shade and among stones.

A. caerulea. Comes from the Rocky Mountains, often three inches in diameter. Blue and white. 2 feet. June and July.

A. canadensis. The common American Columbine. Bright red and yellow.

A. chrysantha. Golden yellow with long spurs. Distinct. 2½ feet. June and July.

A. nivea grandiflora. Pure white.

Price of above varieties, each 15c; 10 for \$1.25.

A. Long Spurred Hybrids. This mixture is one of the most desirable and satisfactory, as they exhibit a wide range of colors.

Each 20c; 10 for \$1.60.

ASCLEPIAS tuberosa (Butterfly Flower). Produces beautiful, large, flat, compact heads of brilliant orange-red flowers, a color found in no other hardy perennial. One of the showiest. Each, 20c; 10 for \$1.60.

BOLTONIA asteroides (False Chamomile). Bushy plants 5 feet high bearing masses of aster-like flowers. Each 15c; 10 for \$1.25.

Five of one variety or ten of not over three varieties at 10 rates.

Coreopsis

CAMPANULA Media (Canterbury Bells). Blue, rose and white, mixed. 2 to 3 feet. July. Each 20c; 10 for \$1.60.

CHRYSANTHEMUM. Hardy. They produce lavish display of bloom in October and November and are most welcome when other trees and plants have lost their leaves, as they supply flowers for the table until late November. Thrive anywhere. Can supply in red, rose, white and yellow. Each 25c; 10 for \$2.00.

CONVALLARIA (Lily-of-the-Valley). Old and familiar to all. Adapts itself to any kind of place and care, or no care at all, and always bobs up serenely in May and June with its pretty, delicate, pure white and highly scented bells. Can be grown in pots as well as outdoors. 8 to 10 inches. Clumps, each 20c; 10 for \$1.60; 100 for \$10.00.

COREOPSIS lanceolata grandiflora (Golden Marguerite). Blooms nearly the entire summer in great profusion. Flowers of a rich golden color. Fine for cutting. 3 feet. Each 20c; 10 for \$1.50.

Delphinium

DAISY, SHASTA. Luther Burbank's wonderful hybrid daisy. Large, pure white flowers blooming in great abundance all summer. 1 to 2 feet. Each 20c; 10 for \$1.60.

DELPHINIUM - Larkspur

Old fashioned but elegant nevertheless. Dazzling deep blue, and in bloom for months.

D. Bellamosum. A dark blue flower of the Belladonna type, with intensely rich blue flowers. June until frost. Each 25c; 10 for \$2.00.

D. Belladonna. Delicate blue, charming. Each 25c; 10 for \$2.00.

D. Hybridum. Mixed. New shades of blue and purple. Each 25c; 10 for \$2.00.

DIANTHUS - Hardy Pinks

D. barbatus (Sweet William). Beautifully marked in a variety of richest hues. Dazzling. Mixed colors. Each 20c; 10 for \$1.50.

D. plumarius (Garden Pinks). Variety much like dwarfed Carnations and equally gay and fragrant. Each 20c; 10 for \$1.50.

DICENTRA Spectabilis (Bleeding Heart). An old fashioned but delicate and still popular flower. The flowers are heart-shaped, hanging all along the under side of the drooping branches. Perfectly hardy. 2 ft. May. Each 70c.

DIGITALIS (Foxglove). An old but still popular flower. Its spikes are of long tubular flowers varying from purple to white, are very showy and impressive. Fine for cutting. June to August. 3 to 4 feet. Each 20c; 10 for \$1.60.

FUNKIA - Day Lily

F. sub-cordata. A handsome, showy plant with large, pure waxy-white flowers borne in large trusses. Very fragrant. 18 inches. August and September. Each 25c; 10 for \$2.00.

F. ovata. Dark green, glossy foliage and light blue flowers. 2 feet. June and July. Each 15c; 10 for \$1.25.

F. undulata variegated. Leaves 8 to 10 inches long, 2 to 3 inches wide, beautifully variegated yellow and green; flowers blue. Fine for edging. Each 20c; 10 for \$1.60.

GAILLARDIA grandiflora (Blanket Flower). Flowers brightly colored and of perfect form. Center deep maroon with petals of orange-crimson and red shaded into rings. 2 feet. June to October. Each 20c; 10 for \$1.50.

GEUM atrosanguineum fl. pl. Brilliant scarlet double flowers most of the summer and fall. 18 inches. Each 25c; 10 for \$2.00.

GYPSOPHILA paniculata (Baby's Breath). Forms a perfect cloud of minute, pure white flowers supported on the slenderest of stems. Besides making a handsome show in the garden, it is very useful to mix with cut flowers. 3 feet. Each 20c; 10 for \$1.60.

Shasta Daisy

HARDY ORNAMENTAL GRASSES

For stateliness, symmetry, grace and tropical luxuriance, select ornamental grasses.

Erianthus ravennae (Ravenna Grass). Resembles Pampas Grass, but is hardy and blooms more abundantly. 9 to 12 feet.

Eulalia gracillima univittata. Produces an abundance of long but very narrow, green leaves with a silvery white midrib. Graceful as a palm. 4 feet.

Eulalia japonica variegata. Similar to above but larger and striped lengthwise green and white. 6 feet.

Eulalia japonica zebrina (Zebra Grass). Very striking and distinct. Unlike most variegated plants, the stripes run across the leaves instead of lengthwise. 6 feet.

Phalaris arundinacea variegata (Ribbon Grass). Green leaves having several stripes of creamy white color lengthwise. Forms handsome clumps, also used for flower beds and borders.

All of above grasses, each 20c; 10 for \$1.60.

HELIANTHUS, Soliel d' Or. Resembles a Dahlia in shape and finish. Clear yellow. Blooms July to September. Each 20c; 10 for \$1.60.

HEMEROCALLIS flava (Lemon Lily or Yellow Day Lily). A fine plant of genteel habits. Blooms in clusters. Of Lily shape and lemon color. Delightfully fragrant. 2 feet. June. Each, 15c; 10 for \$1.25.

Convallaria (Lily of the Valley)

HIBISCUS - Mallow

H. Moscheutos (Rosy Marshmallow). Like the one below except in color, which is pink with dark eye. Each 20c; 10 for \$1.60.

Double Hollyhocks

H. var. albus (Crimson Eye). Immense flower of purest white, with a large, crimson center. 4 feet. August. Each 20c; 10 for \$1.60.

H. mallow marvels. Red. Very strong grower. Large, beautiful red flowers. Plenty of broad foliage of rich green for contrast. 4 to 6 feet. Each 25c; 10 for \$2.00.

DOUBLE HOLLYHOCKS

Another valuable old standby, especially useful for the center of a large bed or for a background for smaller plants. 4 to 6 feet.

H. double. We offer five distinct colors—maroon, crimson, pink yellow and white. Each 15c; 10 for \$1.25.

H. mammoth fringed. Flowers very large, curled and fringed, blooming from June until frost. Mixed colors only. Each 15c; 10 for \$1.25.

Hardy Grass

Planted in between the sidewalk and street or on the lawn, this colorful hardy grass always looks attractive.

Liatriis—Blazing Star

IRIS KAEMPFERI - Japanese Iris

Marvels of elegance. Imagine a plant sending a dozen spikes of flowers 2 to 3 feet high, each one bearing two to four blossoms 6 to 8 inches across and of the most beautiful colors, markings and veinings, as white, violet, lavender, mauve, sky-blue, etc., and you have but a faint picture of the reality. June and July.

Gold Bound. Pure white; one of the best.

Ho-O-Muja. Pale pink, lavender veined.

Hatsu-Gave. White, spotted purple.

Komochi-Guma. Violet, double and blooms in clusters.

Mahogany. Dark red, shaded maroon.

LYCHNIS

L. chalcidonica (Maltese Cross). A fine old garden flower with close heads of brilliant scarlet flowers and dark green foliage. Showy and useful for cutting. 2 to 3 feet. Blooms all summer. Each 15c; 10 for \$1.25.

L. viscaria splendens (Lamp Flower). Almost evergreen. Fairly ablaze with close spikes of crimson flowers in June and July. Each 20c; 10 for \$1.60.

PLATYCODAN (Balloon Flower). These plants form neatly branched bushes of upright habit that grow 2 feet high, producing their attractive blue and white flowers from July to October. Very popular. Each 15c; 10 for \$1.25.

IRIS GERMANICA - German Iris

IRIS is very pleasing planted in groups or when used for border effects. It throws up spikes of bloom that are marvelous in their delicacy of structure and coloring, and the foliage remains fresh and upright after the flowers have been removed.

Canary Bird. Falls white, stands canary yellow.

Celeste. Falls a bright blue, stands a grayish blue.

Conspicua. Very large. Stands buff and yellow, falls deep maroon.

Cubero. Rich orange-yellow, falls heavily penciled maroon.

Florentina alba. White, free-flowering and sweet-scented.

Fulda. Satiny white, falls lilac, feathered yellow.

Her Majesty. Very large and fine. Falls crimson over white, stands, lavender rose.

Honorabilis. Stands golden-yellow, falls crimson.

Mad. Chereau. White, edged and veined blue. Very delicate.

Mrs. Darwin. White, veined and penciled crimson.

Parisiensis. Earliest; showiest. Deep purple. Veined white at base of petals.

All varieties, each 15c; 10 for \$1.25; 100 for \$8.00.

Mt. Hood. Light blue, shaded darker.

Paragon. Rich, velvety purple.

Pyramid. Lilac blue, veined, white center on each petal.

Robt. Craig. French gray, veined violet.

All varieties, each 35c; 10 for \$3.00.

IBERIS sempervirens (Evergreen Candytuft). A profuse blooming evergreen species, and very hardy. Well adapted for rockeries, edging, etc. Pure white, 8 inches. April and May. Each 25c; 10 for \$2.00.

LIATRIS (Blazing Star). Striking plants with rocket-like spikes of rosy-purple flowers. 3 to 4 feet long. Easily grown. Each 15c; 10 for \$1.25.

A Pleasing Border Effect of our Hardy Phlox

PHLOX - Perennial Phlox

There is no hardy flowering plant that will produce such a dazzling display of brilliant colors of all shades from early July until frost as Perennial Phlox. It has been greatly improved of late years, so that the flowers are much larger, more abundant and more brilliant, while the stalks are shorter. The number of varieties is legion, but we offer only a few of the best. 20 to 30 inches.

August Revere. Salmon red, dark eye.

Bridesmaid. Flowers very large, white with deep red eye.

Coquelicot. A brilliant orange-red with violet eye.

Henry Murger. Big as a dollar, white with a large carmine center.

Miss Lingard. Blooms from the ground up. Waxy white with lavender eye.

Peachblow. Low growing and bears a perfect mass of delicate pink flowers.

Rhinlander. A rare shade of salmon-pink, intensified by a distinct claret-red eye. Flowers and truss of unusual size.

Rosenberg. Extremely large flowers in a loose truss; bright reddish violet or wine color, with blood-red eye.

Ryndstrom. A lively Paul Neyron shade of rose-pink.

R. P. Struthers. Rosy salmon, crimson eye. Very showy.

The Pearl. Pure white. A standard.

Price of all varieties, each 20c; 10 for \$1.60.

Phlox Sublata (Moss or Mountain Pink). An early spring flowering type, with a pretty moss-like evergreen foliage. Very valuable for carpeting ground or covering graves. Each 20c; 10 for \$1.60.

Peonies

The Peony is as hardy as a burr oak and absolutely free from insect enemies and disease. This is saying a good deal. In addition the flowers are of immense proportions, sometimes reaching nine inches in diameter, perfectly double and have a great range of color from the purest white to the deepest crimson. Then, too, the newer varieties rival the rose and carnation in delicacy of fragrance and, some say, surpass them. Truly, a most valuable and useful flower. They are, however, a little slow in getting started, so don't expect too much of them the first year. There are thousands of varieties, but we only offer a few of the best and most distinct. 3 feet. May and June.

Alba Sulphurea (Mont Blanc). Light sulphur yellow, changing to white.

Anemoneflora. Delicate rose, with blush white center. Very fine.

Canary. A strong, healthy grower; very prolific. Large and very double. In color a creamy yellow.

A Planting of Phlox

Dorchester (Richardson). Quite dwarfish and late. Flowers very double. Delicate pink.

Duchesse d'Orleans. Large and compact. Deep rose-color, center changing from buff to silvery rose.

Duc de Wellington. Very large and double. Creamy white, bleaching to pure white.

Edulis Superba. Early and very fragrant. Deep pink.

Festiva Alba. One of the best white varieties. Quite prolific.

Festiva Maxima. Probably the largest and most popular of all the Peonies. Pure white, center petals tipped carmine.

Henri Demay. Very large, double, fragrant. Late; violet-purple.

Hercules. Of immense size. Color bright rose to blush white, deep yellow center.

L'Eclatant. Large, full flower, purplish crimson; best of that color.

Modeste Guerin. Broad flowers of cherry rose with lighter center, changing to light rose. Keeps well.

Officinalis Rubra fl. pl. Rich, deep crimson and very early. The old red Peony. 75c each. (Not included in special offer.)

Queen Victoria. Large, blush white.

Richardson's Perfection. Large, light flesh, white center.

Rubra Triumphans. Early. A beautiful, satin-finished and intense crimson variety of rich fragrance.

Tenuifolium. Fringed-leaved. The earliest. Of intense crimson-scarlet color. Single. Very desirable.

A Border Planting of Peonies

Tenuifolium, fl. pl. (Double). Fringed-leaved, same as above, blossoming at the same time and of the same intense crimson-scarlet color, but with this addition, the flowers are very double, making it a very striking plant. Price, \$1.00 each.

Prices of all varieties, except as noted, each 55c; 10 for \$4.50.

PAPAVER - Poppies

For splendor and gorgeous effect nothing surpasses the hardy Poppy. Showy and conspicuous in any position. Fine to mix with fall-blooming shrubbery.

P. bracteata. Mammoth, deep blood-crimson flowers with black center, 5 to 7 inches across. 2½ feet. May and June. Each 25c; 10 for \$2.00.

P. orientale. The same as above except in color, which is orange-scarlet. Each 20c; 10 for \$1.60.

P. nudicaule (Iceland Poppy). Very bright and rich. Will bloom abundantly from June to fall if not allowed to go to seed. White, yellow and orange mixed. 1 foot. Each 15c; 10 for \$1.25.

PYRETHRUM roseum. Bears a profusion of large, single flowers on long stems of very bright pink and rose colors. Its foliage also is finely cut and attractive. Splendid for cutting. 18 inches. June and July. Each 20c; 10 for \$1.60.

RANUNCULUS acris fl. pl. (Double Buttercup). Bears masses of bright yellow double buttercups in May and June. 2 feet. Each 20c; 10 for \$1.60.

RUDBECKIA (Golden Glow). One of the brightest and showiest of hardy flowers and easiest to grow. It produces a mass of double yellow flowers from July until frost. Excellent for cutting. 6 feet. Each 15c; 10 for \$1.25.

SPIREA - Meadow Sweet

S. japonica (White). A splendid plant both in foliage and flower. Flowers creamy white; very floriferous. 2 feet. June. Each 20c; 10 for \$1.60.

Festiva Maxima

A Charming Garden of Hardy Perennials

S. palmata (Crimson). Stems and branches purple-red, flowers crimson-purple. 2 feet. June. Each 20c; 10 for \$1.60.

STOKESIA cyanea (Stokes Aster). Double, centaurea-shaped flowers, often 4 to 5 inches across. 1½ to 2 feet. July to October. Both blue and white. Each 20c; 10 for \$1.60.

STATICE latifolia (Sea Lavender). A peculiar plant having a large tuft of large, thick and leathery leaves close to the ground. From these grow the flower stalks, bearing myriads of small, blue flowers which last for months if dried in the shade. 18 inches. July and August. Each 25c; 10 for \$2.00.

YUCCA

FILAMENTOSA (Adam's Needle). A very handsome, stately and striking evergreen plant with long, narrow, palm-like leaves, having white threads growing from their edges. Stems grow 3 to 5 feet high, bearing bell-shaped, creamy white flowers in July. Each 25c; 10 for \$2.00.

FILAMENTOSA VARIEGATED. Everyone is acquainted with the common Yucca described above, the wonderful flowers it produces in the summer and its value as a decorative Evergreen plant in winter, when others are somewhat drab. Then draw in your mind's eye this same plant of bright green, spike-like leaves, margined with deep yellow, and you have the picture of this wonderful new addition to our list of Perennials. Especially attractive in winter, to say nothing of its beautiful stalks of bell-shaped flowers during summer. The plant is very healthy and a strong grower. Price, 1-year roots, each, 75c postpaid.

Pine Bush, N. Y.
April 22nd, 1926.

Dear Sir: I have received all the grape vines from you. Have them all set out. I am well pleased with them, they all had such fine roots, the best I have ever seen.

Yours truly,
RALPH MOFFATT,

TRITOMA - Red Hot Poker Plant

T. Pfitzeri (The Everblooming Flaming Torch). Vies with the finest Cannas for attractiveness and brilliancy. The plants show from six to ten grand flower stalks all the time, each displaying at the height of 3 feet a great cluster of flame-colored flowers. Needs some protection in the North. June to November. Each 25c; 10 for \$2.00.

VERONICA longifolia subsessilis (Speedwell or Blue Bird Flower). One of the very handsomest hardy flower plants of a blue color. Its flowers at a distance resemble bluebirds perched in the foliage. Hardy and grows in strength and beauty from year to year. 2 feet. May to September. Each 20c; 10 for \$1.60.

Yucca in Full Bloom

GLADIOLI

The Gladiolus thrives under ordinary care, but no plant gives a more noticeable response to good care.

The nature of the soil is not so important as the condition of it. The Gladiolus grows well in sand, gravelly-loam, loam, clay-loam, and clay. Plenty of moisture and humus are requisite for the lighter soils while the heavier types should be well drained.

Soils in which garden peas and beans do well will grow fine Gladioli.

Plant as early in the spring as the working of the soil will permit. Spade or plow deeply. Twelve to fifteen ounces of a 4-8-4 fertilizer to each 100 square feet of surface may profitably be raked in before planting. Well rotted stable manure will probably produce like results.

Plant the bulbs four to eight inches apart in trenches from three inches deep for the heavy soils to five inches for the lighter soils.

No order of Gladioli accepted for less than \$1.00. Postpaid at Each and Dozen rates. 100 bulbs weigh about 12 lbs. Include extra postage when ordering at 100 rates.

Alice Tiplady. Soft orange saffron. The most satisfactory all around variety. Each, 10c; doz., \$1.00; 100, \$5.00.

Byron L. Smith. Lavender pink on white, very daintily colored. Each, 20c; doz., \$2.00.

Nora. Light blue with small dark spot in throat and on lower petals. Each, 10c; doz., \$1.00.

SPECIAL GLADIOLI MIXTURE

15 Bulbs for \$1.00 Postpaid. Our selection of varieties.

AUTO SPRAY NO. 1 Compressed Air Sprayer

This sprayer can be used for spraying all kinds of trees, bushes, shrubs, vines, garden truck, and will handle all spray solutions, whitewash, cold water paints, arsenate of lead, Paris green, Bordeaux Mixture, etc.

It is guaranteed in every particular and works automatically. The operator first fills the tank with solution, locks the pump into the reservoir by a convenient cam arrangement, pumps a few strokes of the plunger, hangs the sprayer on his back and after that it is only necessary to direct the nozzle.

The AUTO SPRAY No. 1 is made either of brass or galvanized iron and furnished with Stop-Cock or Auto-Pop shut-off. The Auto-Pop shut-off is a very convenient arrangement that enables the operator to manipulate the nozzle with only one hand. It also saves considerable solution.

The new "AUTO SPRAY" Nozzle is fitted with a screen that absolutely prevents its clogging. No matter what competitors say, this nozzle is the only one on the market that absolutely will not clog.

PRICES

AUTO SPRAY No. 1-A, Brass tank with Stop-Cock.....	\$9.00
AUTO SPRAY No. 1-B, Brass tank with Auto-Pop.....	9.50
AUTO SPRAY No. 1-C, Galvanized tank with Stop-Cock.....	6.00

Newbark

Plastic Tree-saver

A natural tree salve, an antiseptic plastic preparation quickly applied to protect all wounds of bark or limb. It kills and keeps out insects, fungus disease germs and prevents disfigurement, decay and death of trees. A torn or broken limb, a small patch of bark ripped off by lawn mower, plow or carelessness, may be a place for rot producing fungi to lodge and eventually may mean the death of

a valuable tree. With the use of Newbark, injuries and decay may be stopped very economically. Write for free booklet, "How to Quickly Renew the Life of Wounded and Decayed Trees." The cost of Newbark is only \$1.25 plus a few cents postage for a 5 lb. can, 1 lb. can 50c, 2 lb. can 75c, 10 lb. can \$2.50, plus the postage. Full instructions for applying on each can.
